COMMISSION NOT TO TRY THE CHARGES

That Governor Willis Has Violated Ohio Civil Service Law

MAJORITY DECLARED TODAY THEY SAW NO REASON

FOR AN INVESTIGATION

Charles H. Bryson Still Insisted, However, That He Will Urge Such An Inquiry Into the Governor's Acts In Recommending Appointments—Willis Is Silent.

(ASSOCIATED PRESS TELEGRAM)
Columbus, April 13.—Governor Willis' alleged violation of the civil service law, as charged by Civil Service Commissioner Charles H. Bryson, will not be investigated by the commission. President Samuel A. Hoskins, of the commission said today. Both Mr. Hoskins and Charles I. Brown, the other member, comprising a majority, declared they saw no reason for conducting an investigation for everything which they might desire to bring out already has been made known by Commissioner Bryson's letter to the governor.

Mr. Bryson still insisted today, however, that he will urge the commission to instruct such an inquiry into the governor's acts in recommending certain men for appointment in the classified civil service.

Governor Willis today maintained what was characterized at his office as "an ominous silence," concerning the situation created by his asking for the resignation of fourteen state commission members. He had received only four replies from the three industrial commissioners; Wallace D. Yapple, Thomas F. Duffy and M. B. Hammond, refusing to quit, and from Agricultural Commissioner C. G. Williams, tendering his resignation.

HAND RESIGNATION
TO GOVERNOR WILLIS**

(ASSOCIATED PRESS TELEGRAM)
Columbus, April 13.—A. P. Sandles, president of the state agricultural commission, upon his return from Washington today asked state auditor Donahoe to check up the agricultural department. It is understood from good authority that Mr. Sandles will comply with Governor Willis' request for his resignation and this action is taken as in line with that intention.

Murder Is a Minor Fault Of Revolution In Mexico, Says Prominent Catholic Clergyman

(ASSOCIATED PRESS TELEGRAM)
Pittsburg, Pa., April 13.—Rev. Francis C. Kelly, of Chicago, president of the Catholic Church Extension society, today discussed "Mexico and the American Church," before an important gathering of clergymen here. The occasion was the dedication of the Synod Hall and Chancery building of the diocese of Pittsburg.

Dr. Kelly said that present day difficulties in Mexico were largely because of three serious questions. The rights of conscience, land and education, Mexico, he said, had been without anything like freedom of conscience for over 50 years. Church property had been confiscated to the state by Juarez and had never been returned. Religious schools were closed

PANIC AMONG INSANE
PATIENTS AT A FIRE.**

(Associated Press Telegram.)
Chicago, April 13.—Two hundred convalescent patients of the Chicago state hospital for the insane were rescued today from a fire which destroyed a rambling frame structure used as an annex to the institution at Dunning, northwest of the city. Warned by previous blazes in the building the hospital authorities had prepared a fire drill which worked without a hitch. Some 2,800 other inmates of the institution were guarded to prevent panic or undue excitement in the main building, a few hundred feet away.

The loss was estimated at \$50,000.

HUERTA HAS FINE ROOMS IN NEW YORK

**FORMER MEXICAN DICTATOR IS
QUARTERED IN PALATIAL

**Says His Visit is on "Personal and
Family" Business, But This Is
Disputed.**

(ASSOCIATED PRESS TELEGRAM)
New York, April 13.—General Victoriano Huerta began today to attend to the business which brought the former president of Mexico to New York and which he described as "personal and family."

Despite Huerta's assurance on landing yesterday that he would do nothing while here to violate the neutrality of the United States, it was reported today in Mexican circles that important conferences would be held here at once to determine whether the time was ripe for Huerta to interfere in Mexico. It was said that agents of the federal government here were keeping a close watch upon his movements.

A statement given out by Francisco Elias, the consul-general representing the Carranza faction here, said that Huerta's destination is Yucatan, "where he expects to inaugurate a revolution against Carranza."

General Huerta turned over to the police a mysterious box which was supposed to contain candy and which was handed to him as he landed. He did not open it, but notified the hotel management. At the police station the box was opened by an expert in explosives and was found to contain a rambling manuscript apparently written by some irresponsible person.

**WILSON KNOWS NO
PLANS OF HUERTA.**

(ASSOCIATED PRESS TELEGRAM)
Washington, April 13.—President Wilson has been given no information regarding the plans of General Huerta, he told callers today. The president said he was not in the confidence of the former Mexican provisional president and did not know whether he would come to Washington.

**SENATOR BURTON IN
SOUTH AMERICA.**

Lima, Peru, April 13.—Former Senator Theodore Burton, of Ohio, left Lima last night, after spending several days here, to resume the tour of South America, which he is making in the effort to bring about closer relations between the United States and the Latin-American countries. Mr. Burton will visit the Peruvian cities of Arequipa, Puno and Cuzco and then go to Bolivia.

and orders of teachers disbanded. No outward manifestation of religion was permitted even distinctive dress of clergymen being prohibited in the streets. In the large cities schools were supplied by the state but outside such communities Mexico practically has no schools. The state has never been able to supply them and the church was not allowed to do so.

"The church has avoided interference in political affairs," said Dr. Kelly, "and church men are notoriously timid even about their own defense. The church accepted Juarez, Diaz and Madero. She will accept whatever legitimate ruler comes out of the present chaos."

The Latest News from the Front Indicates That Most of the Fighting Is Taking Place In the Eastern Arena

The German attack on the Russian frontier in the north near the Prussian fortress of Osovets. The abandonment of the former siege of this fortress was interpreted in Petrograd as indicating that the Germans had given up their attempt to break through the Russian line of defenses and advance on Warsaw from the north, but it is now said semi-officially that the Russian capital that the invaders have brought up howitzers and begun a new bombardment. One of the German siege batteries is said to have been damaged badly by the Russian guns.

Five independent Austrian armies are operating along the Carpathian front. Petrograd newspapers publish semi-official details concerning this campaign, to the effect that the vari-

ous Austrian armies are under direction of the German general staff. It is said also that Emperor William personally is supervising the work of the staff.

In Bukovina, heavy fighting is in progress, according to a Bucharest dispatch to Paris. Of two Austrian armored trains which advanced against the Russians yesterday, one is said to have been blown up and the other forced to withdraw after being damaged.

The "highest German authority" in Rome has denied reports that Germany is considering peace negotiations. From this source comes a statement that the German general staff has made plans for resumption of the offensive with fresh vigor.

The Italian military authorities have ordered army officers to dull the metal on their uniforms and scabbards. This is described as a measure usually adopted on the eve of war.

Grand Jury Investigates The Death of Mrs. E. C. Copper; The Coroner Calls It Suicide

Witnesses were called today before the Licking county grand jury to give testimony in the case of the death of Mrs. E. C. Copper, who died of a gun shot wound early on the morning of Feb. 8. Her body was found in the yard near the back porch of the home. A bullet wound in the head had apparently caused death and a revolver was lying near the body.

Coroner W. L. Jackson, a few weeks ago rendered a verdict of suicide after having delayed filing the verdict to give relatives of the dead woman an opportunity to have an investigation conducted. Detective Thomas E. Foster of Columbus, conducted an inquiry lasting a week and claimed to have found evidence warranting a further investigation on the theory of murder. In the absence of a report from the detective, the coroner filed his verdict.

He declares that blood spots found in the house, marks found on the floor of the kitchen and back porch

such as might be made by dragging the woman's body across the floor, and certain other suspicious facts, led him to believe that the woman had been murdered in the home and the body placed in the yard where it was found.

Although it was stated at the time that the woman was missed from the house about 4 o'clock, the body was not found until 6 o'clock and the detective says he is prepared to show that despite the fact that the woman had been dead for two hours her body was not stiff and cold as might be expected if it had lain in the rain on the ground covered with ice during that time. He says he can also establish the fact that the shot was fired before 6 o'clock and that it was heard by at least two persons in the neighborhood.

Those supporting the suicide theory explain the blood spots by telling of the visit to the Copper home the day before the woman's death of a boy, the son of a woman who was Mrs. Copper's intimate

friend. The boy was suffering from nose bleed. It is also pointed out that Mrs. Copper purchased the revolver which she is said to have used only a day or two before her death.

Detective Foster refuses to state the motive which he says, led to the commission of the crime. It is known that relatives of the woman were not satisfied with the theory of suicide and caused the investigation.

STEEL STOCK AGAIN RISES IN A FLURRY

**THAT CAUSED RUMORS OF RE-
ORGANIZATION OF THE
BETHLEHEM CO.**

**These Were Stoutly Denied—Top
Price 54 Points Higher Than
Week Ago.**

(ASSOCIATED PRESS TELEGRAM)
New York, April 13.—Another spectacular rise in Bethlehem Steel, which sold up to \$139 1-2 in the first hour of today's business, a gain of 15 1-2 points over yesterday's close, was the all-absorbing feature of today's early stock market. The advance was again accepted mainly in transactions of 100 share lots but its effect upon the balance of the list was less disturbed than heretofore.

Wall street still inclined to the belief that the movement, without parallel in the recent history of the exchange, is primarily due to the persistent opposition of the short interest together with the small amount of stock available for speculative purposes. All rumors of a contest for control of the property were scouted.

Bethlehem Steel rose to 142 before noon and then dropped back four points from its high price. The entire market moved forward towards the end of the morning session, largely as a result of peace rumors from Washington.

By way of variation, the phenomenal movement in Bethlehem Steel was said to be the precursor of an important announcement to stockholders of the company. This, it was said, would involve an increase of the company's stock with valuable subscription rights.

At this morning's high price, Bethlehem Steel showed a gain of 54 points over its low price of a week ago.

Bombardment of Matamoros Trenches By the Villa Forces Began Early Today; Brownsville, Texas Schools Dismissed

(ASSOCIATED PRESS TELEGRAM)
Brownsville, Texas, April 13.—The bombardment of the Matamoros trenches by the Villa army besieging Matamoros began today. The first few shells exploded in the air above Matamoros. Only one cannon appeared to be in action.

The Villa gunners got the range after a few minutes and dropped two shots within a few yards of the trenches on the west side of Matamoros. They kicked up some dirt, but did no other apparent damage. Before the range was obtained, four shells burst over Matamoros, one of them above the French theater near the American consulate.

Children were dismissed from school in West Brownsville today because of heavy rifle firing in the woods on the Mexican side of the river near West Brownsville.

The excitement started when the Mexican end of the international bridge here was closed and a con-

siderable force of Carranza cavalry and infantry were observed making a sortie from the trenches which defend the west side of Matamoros.

These forces crossed the clear places of a quarter mile breadth in front of the trenches without being molested by the Villa lines. After the Carranza column had entered the brush and the woods, the Villistas began firing. American army observers at the international bridge here have watched some interesting brush fighting tactics of the Carranza troops in the numerous small sorties made in the last two days.

**200 VILLA PRISONERS
REPORTED EXECUTED
BY GENERAL HERRERA**

(ASSOCIATED PRESS TELEGRAM)
Laredo, Tex., April 13.—Mexican soldiers in Nuevo Laredo today declared General Mariano Herrera had caused 200 Villa prisoners to be executed yesterday after the Villa defeat near Interocho, 20 miles south of here. The Carranza commander's only reply to Americans who questioned him regarding the report was "the prisoners have been disposed of."

In his official report to Carranza regarding the battle Herrera was said not to have mentioned any executions. Americans familiar with the situation were little disposed to believe the stories although they apparently were taken for trial across the border from here. Hundreds of residents of Nuevo Laredo went to the Interocho battlefield today to watch the burning of the dead, killed in yesterday's battle in which it was said more than 200 Villa troops were killed.

Columbus, April 13.—As the first definite step in reorganizing state commissions with regard to the wishes of Governor Willis, it has developed that Homer C. Price, Republican member of the agricultural commission, will not have a place after July 1.

Dean Price is a son of the late Thomas D. Price, who was reared in Licking county and is an alumnus of Denison university.

He was appointed by virtue of his position as dean of the agricultural college at Ohio State University. The law providing for the commission specifies that one member is to be this dean.

Last Friday Governor Willis called upon the other three members of the commission for their resignations. Then, it was said, that because the law made the provision for the dean's appointment, the fourth member was safe from removal at the insistence of the governor. Yesterday

HOMER C. PRICE.

it developed that the university trustees, at their March meeting, had asked Prof. Price to step out as dean July 1. The action was kept secret.

Losing his position as dean, Prof. Price automatically would be barred from further service on the state board. No reason has been given by the trustees for their action. During the 12 years Prof. Price has been at O. S. U. the agricultural college attendance has increased from 250 to 1400. Some weeks ago, when Walter J. Sears failed of reappointment as university trustee, he blamed Price among others.

The resignation of his Republican colleague on the board, C. G. Williams of Wooster, reached the governor yesterday. There were no other resignations yesterday. The lines of the defiant members of five state boards remained intact. Four formally notified the governor they would not step aside.

SIGNS OF A WEAKENING

**Of Teuton Resistance is

His Countrymen at Home
—Late War News.**

(ASSOCIATED PRESS TELEGRAM)
London, April 13.—Field Marshal Sir John French's message to his countrymen at home that "I know when the time comes for us to make our great move we can break through the Germans," and the British eye-witness' statement of yesterday that there are plain signs of the "gradual weakening of the German resistance," are accepted here as an intimation that the present steady pressure on the western front will shortly develop into events of vast scope. It is thus expected that the next three months will be especially memorable in this epoch-making war.

Military writers are of the opinion that the reported French success between the Meuse and the Moselle—an important region stretching between the rival fortresses of Verdun and Metz—have given a promising opening for the spring campaign. They regard it as the signal for the general offensive movement which has been awaiting the arrival of adequate accumulations of men, equipment and supplies.

The suspension of infantry fighting in this all-important Verdun district has quickly broken down the gallant German attack to recapture the position at Les Eparges; possession of which enabled General Joffre to give another twist to the screw the vise wherewith he hopes to grip the German position of St. Mihiel, that bastion-like projection into the French line which the invaders have held tenaciously for so many months. The Russian offensive in the Carpathians continues to meet a strenuous defense on the part of the combined Teutonic armies and although it appears to be slowly winning its way forward toward the plains of Hungary, it has encountered enormous difficulties. The Austrians have been preparing their defensive positions throughout the period which has intervened since the Russians first raided this same territory.

To relieve the pressure on the Russians is an additional reason for the activity of their allies in the west. The report that Emperor William personally is directing the operations in the Carpathians is doubted, as is also the rumor from Cologne that Field Marshal von Hindenberg has asked for reinforcements to the extent of 300,000 men to undertake another campaign against Warsaw. It is thought to be far more likely that he will attempt to divert the attention of the Russians by a thrust from the direction of Cracow. An attempt at diversion of this character is revealed by the Russian communication which reports a faithful Austrian attack in the direction of the Stry. Apparently this is designed to turn the left flank of the Russian army, and so threaten all lines of communication north and south which supply the Russians fighting in the Beskid range of the Carpathians.

Kronprinz's Captain Makes Formal Request for Time To Make Necessary Repairs

(ASSOCIATED PRESS TELEGRAM)
Newport News, Va., April 13.—Formal request from Commander Thierfelder of the German converted cruiser Kronprinz Wilhelm for time to repair his vessel in order to make her seaworthy, was awaited today by the federal authorities here. Pending receipt of this information, the merchant raider, which still is at anchor in the James river, will not be allowed to go into the dry dock at the shipyard here. Commander Thierfelder had promised his formal application today.

A survey of the Wilhelm will be made by a board of naval experts to

determine the necessary repairs. They will follow the precedent established in the case of the Prinz Eitel Friedrich recently interned at the Norfolk navy yard. The extent of the repairs as well as the time required will be kept a secret by the federal authorities.

A preliminary survey by experts from the shipbuilding company here disclosed that at least three weeks will be required to make the Wilhelm seaworthy.

The fact that the Wilhelm will require considerable attention before she can be made seaworthy, it was believed, may eventually cause her to be interned. Commander Thierfelder, however, insists that he is anxious to have his ship repaired as quickly as possible.

Who Can Doubt Sworn Testimony of Honest Citizens?

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped in bed and slept half of the night.

I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

BUD'S SECOND SHOWING WAS TO HIS CREDIT

Bud Solinger, Newark youngster, who made his second appearance in the pugilistic ring in Columbus last night, made such a good showing against George Crawford that he was immediately signed up by the management of the Tuxedo club, also of Columbus, to meet "Hoo's" Thomas on next Monday night. Thomas had a go with Crawford who was Solinger's opponent last night and the Tuxedo management was anxious to see the Newark youngster tackle Crawford's other opponent.

Solinger, according to his manager, R. B. May, mixed it freely with the more experienced boxer, and quit the bout with honors even. "Crawford might have had a shade the best of it," said May Tuesday morning, "but it was so small a shade that it didn't amount to much. Solinger made a splendid showing, considering his experience."

Batting Reddy of New York beat Chic Hayes of Indianapolis in 10 rounds and Fred Nesser chased Brockie Jones all over the ring before Jones' seconds indicated that their man was whipped by the Panhandle heavyweight. This bout went but two rounds.

ALASKAN DOGS IN SWEEPSTAKE RELAY RACE OF 412 MILES

(Associated Press Telegrams)
Nome, Alaska, April 13.—The 412 mile Alaskan sweepstake race for dog teams will start tomorrow when half a dozen teams, each made up from 10 to 18 dogs, drawing a racing sled and driven by the most expert drivers in the North, set out on the eighty hour grind over the snow trail from Nome to Candle and return.

The list of entries is not yet completed, but already four of the most widely known drivers in Alaska have entered the race. These are "Scotty" Allan, who twice has driven the team owned jointly by himself and Mrs. Charles E. Darling of Berkeley, Calif., to victory; Leonard Seppala, Paul Kjegsted and Fred Ayer. John Johnson, whose team of Siberian wolves set the record of 74 hours, 14 minutes and 20 seconds in 1910, and won last year's race in 81 hours and three minutes, will not race this year.

The purse already amounts to \$2000 and this sum will be increased.

Light snow is falling and this will have a tendency toward making a slow course.

NEW DISCOVERY FOR ECZEMA

Doctors Having Great Success with Amolox

Amolox is performing wonderful cures after all other remedies have failed. It is the prescription of a well-known physician who has used it in his private practice. For the first time it is now offered to sufferers of skin diseases at the leading drug stores. A well-known doctor in Youngstown, O., writes, "I have used Amolox in four bad chronic cases of skin diseases, all of which showed a marked improvement from the start. Two are entirely cured."

Amolox Ointment will quickly relieve pimples on the face, blackheads, and clear up a muddy complexion. Bad chronic cases of eczema, psoriasis, salt rheum, tetter, lasting for years, require both the Amolox solution and ointment to effect a cure. Trial size, 50c. Guaranteed and recommended by T. J. Evans.

(Associated Press Telegrams)
San Diego, Calif., April 13.—British, Japanese and Australian warships and auxiliaries are using Magdalena bay, lower California, as a coal and supply base, according to Captain A. Somellera, of the Mexican auxiliary cruiser Ensennau, which reached port yesterday from Magdalena via Turtle bay.

"Warships of the allied fleet in the Pacific have been using Magdalena bay as a base for a number of months," said Captain Somellera. "According to the natives, there have been at times a fleet of foreign warships and auxiliaries, mostly British and Japanese at anchor in the bay. The warships were all stripped for action and looked as if they had been steaming on long voyages."

"The Japanese cruiser Asama is still aground where she struck Dec. 31. Attempts to salvage the cruiser have been going on without interruption since she struck, but the work was stopped about a week ago to await the arrival of a salvage steamer. During the operations a fleet of British and Japanese warships was anchored in Turtle bay, then crews assisting in the salvage attempts. The Japanese cruisers Idzuma and Iotawa departed for Honolulu a week ago."

The same elaborate production will be given Thursday evening, the costumes having been ordered from New York and an orchestra of 18 pieces will play the scores. Rehearsals are occurring nightly and the principals are working like Trojans to make it better than ever. Miss Blanche Trost will sing the part of Blanche, the good for nothing and Miss Anna Reigger, German, the last Marchioness. These two young ladies made a great hit at the previous performance.

The chorus is said to be better than ever and their singing of the many numbers will certainly be enjoyable. There are fifteen song numbers in the first act, nine in the second and six in the third. Get your reservation at the box office and you will witness a splendid production. Remember the curtain rises promptly at 8:15 o'clock.

LEPROSY

IS CURABLE AND THERE IS NO DANGER OF CONTRACTING THE DISEASE.

Such a Statement Made by Physician Who Has Conducted Numerous Experiments.

(Associated Press Telegrams)
San Francisco, April 13.—"Leprosy is curable and there is little danger of contracting the disease, as I have shown by having none but leprosy servants in my home for years."

This statement was made today by Dr. Adolph H. Boehmer, who has arrived here from Siam. For five years Dr. Boehmer was surgeon general of that country and private physician to the late King Chulalongkorn. He has studied leprosy exclusively for several years.

"All the house boys I had during many years in Siam were afflicted with leprosy and I cured them all, except those who had the disease in a too advanced form when they came to me," Dr. Boehmer said. "The cure is sure and leprosy could be stamped out in this country in a short time."

Dr. Boehmer intends to go to Cuba to study the treatment of tropical diseases.

More than 1000 drivers and conductors of London omnibuses are now at the foot.

ROOTS OUT CORNS BY PENETRATION

Dr. Hunt Finds the Quick, Clean, Painless, Effective Way. ONLY 10c.

Cutting a corn never cured it. Caustic liquids only make blood poisoning, and stimulate further corn growth. Corn pads are bulky and chafe the toes. Salves are greasy. But one way that does cure corns of all kinds and sizes is the penetration way, discovered by Dr. Hunt, of Sidney, Ohio, a man who has spent a lifetime in the development of this new principle of curing corns by penetration.

Dr. Hunt's New Corn Cure comes in the form of clean, handy plaster. Six plasters in a box. The plaster size of corn and apply. Instantly the pain is eased. All you feel is the soothing effect. The plaster does not bulk up the corny pads.

Now see what happens. In two days the corn has become so thoroughly penetrated that it can be easily and quite painlessly lifted out, root, branch and all.

Remember, this principle is new. It is different from anything else offered as a permanent cure for stubborn corns. And a box full costs only ten cents. Money back if not delighted. Sold by druggists and shoe dealers everywhere. Or, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

LADIES DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyneth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Agents Hall's drug store.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before Breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is Kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid on stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in a mistake by having a good kidney every home, because nobody can make flushing any time.

Are You Rheumatic?—try Sloan's

If you want quick and real relief from Rheumatism, do what so many thousand other people are doing—whenever an attack comes on, bathe the sore muscle or joint with Sloan's Liniment. No need to rub it in—just apply the Liniment to the surface. It is wonderfully penetrating. It goes right to the seat of trouble and draws the pain almost immediately. Get a bottle of Sloan's Liniment for 25c. of any druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied but it does give almost instant relief.

"Me for 'GETS-IT' When I Have Corns"

Simple As Saying It! Never Fails!

It does your heart good to see how easily and quickly any corn comes out when you put "GETS-IT" on! And then when you've gone along for years trying everything, when you've sat up nights wrapping up your toes in bandages, smearing on salves that rub off or swell up the corn, putting on cotton plasters that make corns pop-eyed, slaughtering your toes with razors, jabbing them with knives and pruners, the quick with scissors—and then you put on 2 drops of "GETS-IT"—and see your corns fall right off—why, it just looks like a miracle. Just try it. "GETS-IT" never fails. No pain, no trouble. Use it for any corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere. Use a bottle or sent direct by E. Lawrence & Co., Chicago.

DEATH

CLAIMS WILLIAM R. NELSON ONE OF THE GREAT AMERICAN NEWSPAPER EDITORS.

He Was Associated With Samuel J. Tilden, and Was Champion of Reform Politics.

(Associated Press Telegram)

Kansas City, Mo., April 13.—Funeral arrangements for William Rockhill Nelson, editor of the Star, who died this morning, were being completed by the family today. Mr. Nelson had been unconscious since Thursday last. Death was due to uraemic poisoning. Mr. Nelson's last conference with his associates took place in his bedroom the day before he became unconscious. It pertained to the necessity of keeping up the fight for honest elections.

"That is fundamental for Democratic government," he said, "I may not be here to see the fight won, but the Star will fight on with all its resources until the present rotten system is broken down."

William Rockhill Nelson was founder, owner and editor of the Kansas City Star. Although he did not enter the newspaper business until he was nearly 40 years old, he brought to it such originality, ability and energy that he built up one of the greatest newspapers of the country.

Mr. Nelson was born in Fort Wayne, Ind., March 7, 1841. He came of two centuries of American ancestry. His maternal grandfather, William Rockhill, settled in Indiana when that state was a wilderness in 1819, and was the first farmer in America to plant a thousand acres of corn. His father Isaac DeGroot Nelson, was identified with the upbuilding of the state and took an active hand in its political life.

William Rockhill Nelson was educated at Notre Dame University. After a short experience as a youngster in cotton growing in Georgia just after the war, he returned to Indiana and became a general contractor. He engaged in the building of roads, pavements, and bridges, and was associated in a contract for the construction of the Southern Illinois State Penitentiary.

Intense admiration for the reform work of Samuel J. Tilden brought him into contact with that great Democrat and when only 34 years old, he became Tilden's Indiana campaign manager. Interest in political leadership made him turn to newspaper work as the best way to influence men in the mass. He bought an interest in the Fort Wayne Sentinel and a business reverse determined him to devote all his time to journalism.

He soon became convinced that the opportunities in Fort Wayne were too small, and after looking the field over, he decided on Kansas City as the most promising city of the country. He persuaded his Fort Wayne partner, Samuel E. Morris, to make the venture with him. They sold their Fort Wayne interests, went to Kansas City and started The Evening Star as a little four-page afternoon newspaper, on September 18, 1889. Mr. Morris withdrew from the enterprise after a few months on account of ill health, and Mr. Nelson continued as sole owner and editor-in-chief.

Essentially a builder, he took an intense interest in the development of the city. Almost from the first issue the Star urged the necessity of paving the streets, of getting a park system, of building attractive houses, of planting shrubbery and trees. Mr. Nelson himself had the trees along the first Kansas City boulevard. He was constantly instigating movements for city betterment.

One of his achievements was the residence district which he laid out near his home as an example of what could be done toward city beautification. He built nearly a hundred modest houses along roads which he lined with stone walls covered with honeysuckles and crimson ramblers. He was intensely interested in fine pictures and he made a collection of reproductions of European masterpieces done by the best artists who

could be found, which he gave to Kansas City.

In politics he was, as he often said, "independent but never neutral." But he would never consider any elective or appointive position. Early in President Taft's administration the suggestion was made in newspaper reports that he might be appointed ambassador to France. He commented editorially as follows: "The editor of the Star is simply occupied, sustained and satisfied with his present job. He regards himself as holding a place of greater responsibility and usefulness than any within the gift of the president, or the electorate. Not only has he never been a candidate, active or receptive, for any office, but he never has asked for the appointment of any one else."

In 1881 Mr. Nelson married Miss Ida Houston. Their one child, a daughter, Mrs. Irwin R. Kirkwood, lives in Kansas City.

ORDER

GIVEN TO ALL ITALIAN ARMY OFFICERS TO DULL METAL ON THEIR UNIFORMS

And Sword Scabbards, a Measure Usually Adopted on Eve of War.

(Associated Press Telegram)

Rome, April 12.—Via Paris, April 13.—An order is printed in the military Journal directing all army officers to dull the metal on their uniforms and the scabbards of their swords. This is a measure which is usually adopted on the eve of war.

After receiving a warning from the minister of war that in case of mobilization the public schools would be used to house troops, the municipal council met tonight (Monday) to discuss what measures would be taken in such an emergency. It was decided to have school sessions continued in hired buildings substituting women for male teachers who would be called to the colors. It also was decided that so far as possible, street cars and other public utilities would be operated by women, provided mobilization resulted in a shortage of male employees.

ANOTHER DOCTOR FROM U. S. MAY GO TO SERBIA

(Associated Press Telegram)

New York, April 13.—Dr. Samuel Taylor Darling, bacteriologist, for 10 years associated with Major General William C. Gorgas in sanitary work at Panama, arrived here today on the steamship Matapan from Colon. Dr. Darling would not discuss the reason for his return to the United States at this time, but it is understood that he has been asked to become a member of the sanitary expedition that will be sent to Serbia by the Rockefeller Foundation.

Dr. Darling accompanied Major General Gorgas, then a colonel and Major Noble of the Panama sanitary corps to South Africa in 1913, where they went to endeavor to reduce the mortality among the miners in the Rand district.

OREGON PRISONER ALLOWED TO GO TO SISTER'S BEDSIDE

(Associated Press Telegram)

Salem, Ore., April 13.—That she might go to the bedside of a sister who is dying in Connecticut, Governor Withycombe has issued a conditional pardon to Miss Helen Green, committed to the penitentiary for obtaining money under false pretenses, by means of spurious mortgages.

Friends of the woman also represented that unless she were allowed her freedom, considerable property to which she has title would be lost through Sheriff's sale.

NO PANIC

AMONG PASSENGERS ON STEAMSHIP MINNESOTA GROUNDED SUNDAY NIGHT.

Some Women Became Hysterical But All Were Transferred Safely to Rescue Ships.

(Associated Press Telegram)

Kobe, April 13.—There was no panic on board the steamship Minnesota when she ran on a rock off Iwajima at the entrance to the inland sea of Japan, Sunday night, according to passengers brought here by the steamer Oanfa. The night was calm, but the weather was thick and foggy when a grating sound was felt at 8:45 p. m. It was found that the vessel had grounded three miles out of her course.

Some of the women aboard became hysterical, but excellent order was maintained and many of the passengers even returned to their berths, upon the assurances of the officers that there was no danger. The Oanfa, which the Minnesota previously had passed, arrived about 1 a. m. to render aid in response to distress signals.

About one hundred passengers were transferred to the Oanfa without accident and arrived at Kobe today. Among them was Mrs. Francis Burton Harrison, wife of the governor-general of the Philippines, who said they had suffered little inconvenience as the result of the accident.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulled coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulled coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

MISTAKE

OF GERMANY IN REGARD TO THE SPIRIT OF FRENCH IS COSTING HER DEARLY

Premier Viviani Says Prussian Militarism Will Be Crushed for Good of All Nations.

(Associated Press Telegram)

Gueret, France, April 13.—"Germany, ignorant of the soul of France, now is being punished for her mistake," was the declaration made by Premier Viviani at the opening yesterday of the departmental council of Creuse. "She thought to find," he continued, "a divided, frivolous nation, but she met an iron wall against whose heroic resistance the flower of her army was broken."

"The French nation, misunderstood and despised, has arisen ready to pile sacrifice on sacrifice with millions in arms preparing for Germany's chastisement. We are certain of victory—the victory of justice. Prussian militarism, crushed, the peace of the world is irreconcilable with its sanguinary whims. We shall accomplish this task with our allies. We shall write not only in the history of France, but in the annals of humanity a page which our sons will read with emotion and pride."

NO PEACE

IS BEING CONSIDERED AT PRESENT IN BERLIN UNDER ANY CIRCUMSTANCES

Reports Say Germany Has Supplies to Prolong the War Indefinitely.

(Associated Press Telegram)

Rome, April 12.—Via Paris, April 13.—Information obtained from the highest German sources in this city is to the effect that there is absolutely no basis for the report that peace negotiations under certain conditions are being considered in Berlin. These reports, it is said, are based upon ignorance of actual conditions in the German empire. The assertion is made that both Germany and Austria, particularly the former, have within their borders supplies of every thing necessary to prolong the war indefinitely.

Well-informed Germans in Rome declare the determination of the central empires to carry the conflict to the end will become apparent soon when the campaign is resumed with fresh vigor on both fronts, according to plans mapped out by the general staff during the winter. The same sources of information are authority for the statement that not only can Germany provide enough food to supply her people, but that she has on hand a plentiful store of supplies for manufacturing arms and ammunition.

OPTICIAN RECOVERS BRIGHTS DISEASE

(Associated Press Telegram)

Hearing that H. W. Smith the optician of Mason City, Iowa had recovered from Bright's Disease we wrote him and take the following items from his reply:

"Specialists pronounced my case Bright's Disease and incurable and advised me to go south to prolong my life. Went to Mineral Wells, Texas. Became terribly bloated. Physician there made tests and found casts and almost solid albumen. Several at the Wells who had been cured by Fulton's Renal Compound persuaded me to take it. Dropsy dropped forty-five pounds in fourteen days. In three months I was back to business."

"I continued the treatment over two years, and during the last four years have not found it necessary to use the medicine. I have received many letters, all of which I have answered. Through my correspondence I have learned of a number of recoveries."

"The ability of Fulton's Renal Compound to oppose Renal degeneration and reduce albumen in many cases of Bright's Disease is not a matter of opinion but a FACT IN PHYSICS, and we will mail formula for albumen test that will show the percentage from week to week. As albumen declines improvement commonly follows, recoveries having been reported in thousands of cases. Formula and literature mailed on request. John J. Fulton Co., San Francisco. J. D. Hall is local agent. Ask for pamphlet."

FIERCE STRUGGLE IN BUKOWINA IS STILL IN PROGRESS

(Associated Press Telegram)

Paris, April 13.—A fierce struggle continues in Bukowina, according to a dispatch to the Petit Parisien from Bucharest. The Austrians are reported to have dispatched two armored trains against the Russians near Bujaco yesterday. They were met by a terrific fire from the Russian artillery. One of them crawled back to Czernowitz, badly damaged, but the other was blown up. Austrian troops which followed the trains, delivered two furious attacks, but are said to have been repulsed.

The dispatch says that four steamers loaded with troops, ammunition and war materials for Serbia, passed Ottenitz, a Rumanian town on the Danube yesterday. They were loudly cheered by the Rumanians.

The editors are filling their first pages with the big battles of the European war until the major league ball season opens.

Many men are determined to beautify their home grounds this summer even if they have to make their wives do the work.

Many men who can't name the capital of Cuba will always remember that Havana was the scene of the Willard-Johnson fight.

The baseball association people, that put up a high board fence with no knot holes, act as if they had never been boys themselves.

Apparently the only way to get peace is to have an international army fighting most of the time against warlike powers that are looking for trouble.

Some of the High Schools continue to have teachers of Latin and Greek, in spite of the fact that the appropriation is not sufficient for a suitable baseball coach.

The Mansfield News had a fine editorial last Saturday headed "The Perfect Man" and they say every man in town read it from top to bottom expecting to see a description of himself.

Governor Brumbaugh has designated April 16 and 23 as Arbor days in Pennsylvania. One advantage is this: If you forget to plant a tree on the 16th, you may do it a week later and still be on time.

Many women, who buy no new Spring hats because their husbands kick on the bill, go down town and find the same husbands looking for the most stylishly dressed woman they can find to flirt with.

Tips and Wages.

The excuse for toleration of the tipping system has commonly been that waiters, porters, and others servants are paid such low wages that they must have liberal tips to live. With this in view, many men nowadays in city restaurants hand out a half dollar tip. The travelling salesman or impecunious traveller who can't play the game on this level is subjected to many annoyances.

Pullman sleeping car porters, testifying before the Industrial Relations committee the last week, reported very liberal wages as the result of the tipping system. One man said that his salary was \$42.00 a month and that his tips averaged \$75.00. Other cases were similar.

The average man employed in Pullman car porter work could not probably earn \$117 a month in other employment. A frequent result is that by flattering and obsequiously waiting on wealthy people, while neglecting others, they win a wage above the average level. Thus they gain money at the cost of a loss of independence.

If the tipping system was held down to reasonable level, it would not always increase the cost of travel. If all the customers of the average hotel should at once stop tipping, the hotel managers would have to increase wages. Probably then they would increase prices.

But the tipping system annoys the public with growing size of tips, feeling that they are victims of a graft.

No Balance.

Women voters have the balance of power in Chicago—that is, assuming the men divide. But as the women must scatter their votes, the men also will have just as much balance of power.—Omaha Bee.

No Doubt About It.

"Many of the ills of life originate in the mouth," says Dr. Wiley. Men who have gone to the hospital to have broken noses, black eyes and smashed ribs patched up will probably agree with him.—New Orleans States.

As America Gets War News.

Treatment by the American daily press of news arising from the European war is cause for great admiration. It is as fair and accurate as human agency can make it, is splendidly devoid of the semblance of hysteria, such as might easily involve this country in serious entanglements and, it seems, has again demonstrated that American journalism is equal to any situation.—Iron Trade Review.

The Wicked Printer.

Unobserved and unannounced, the president of a church society entered the composing room of a newspaper just in time to hear these words issue from the mouth of the boss printer.

"Billy, go to the devil and tell him to finish that 'murder' he began this morning. Then 'kill' William J. Bryan's youngest grandchild, and dump 'Sweet Angel of Mercy' into the hellbox. Then make 'up' that 'Naughty Parisian Actress' and lock up 'The Lady in Her Boudoir.'"

Horried, the good woman fled, and how her children wonder why they are not allowed to play with the printer's youngster.—Pittsburg Dispatch.

Business Situation.

With the steadily improving business conditions in countries remote from the war zone there is a distinct growth of confidence. The situation is far from satisfactory, but great encouragement is derived from the fact that the steel industry is more active than it has been in many months, bank clearings are expanding, railroad returns are less unfavorable, there are fewer failures, and there seems to be a general revival in commercial activities. Conservatism still prevails, and should prevail as long as the war lasts.—Christian Science Monitor.

What a Revival Is.

The word "revival" is often given a meaning which primarily does not belong to it. Many emphasize the conversion of sinners as the essential element in revival work; but that is the secondary meaning of the word. Essentially, "revival" means the quickening of God's people. You cannot revive a dead man. The unregenerate sinner is spiritually dead. He must be born again. Now, you may revive a partially drowned body, or a partially frozen body. The regenerate soul's life often weakens and wanes, until the flame almost flickers out. But if there be the least spark of life left, it can be fanned into a flame; and like the apparently dead cinder in the smithy's forge, that spark will touch others and kindle a flame that will enliven a church, a city or even a nation. A revival of religion, then, must logically begin with the church. Such is the divine order.—The Christian Herald.

End of War.

It is not likely that the combinations of insurance writers known as Lloyd's or any other persons in England have any more definite knowledge of the future than is possessed in this country, but it is worth noting that the conviction over there is pretty general that this year will see the end of the war. Bets have been made by Lloyd's at varying odds that the war will end in June, September and December, while recent betting on the London Stock Exchange has been 20 to 1 that it will end by December. Such long odds show a considerable degree of confidence, but they don't prove the proposition that they back.—Hartford Courant.

A Discarded Theory.

Everyone can recall how the digging of the Panama Canal was going to double the effectiveness of our navy by enabling our ships to operate in either ocean. But since the waterway has been opened this theory has been abandoned, in fact is being repudiated and even denounced as silly. Ex-Secretary of the Navy Meyer is the latest to ridicule it.

Yet at the time it was being put forward as an argument for going ahead with the canal project, it was accepted unquestioningly. Not a voice is recalled as being raised in contradiction. The military value and importance of the canal to the United States was as stridently proclaimed by the very elements that now scout it as of little moment in considering the enlargement of the Navy.

But if the argument was good when used to urge the digging of the canal should it not be just as good when the canal has been dug. Contrariwise, if it is ridiculous now, was it not ridiculous then? Or is the only test of the soundness of a theory its value in getting an appropriation through?—Pittsburg Dispatch.

Pointed Observations

The report of another slide at Panama calls attention to the fact that we have the only self-closing canal on record.—Chicago Herald.

The French government is well satisfied by what it believes is the reduced efficiency of the German artillery. It must be easily pleased.—Kansas City Star.

Billy Sunday says "the devil invented clocks." If he makes it alarm

clocks, we're all with him.—Pittsburg Dispatch.

Two states now claim Champion Willard. Kansas says he is an Oklahoman and Oklahoma says he is a Kansan.—Pittsburg Gazette Times.

Whip manufacturers claim that rattan is very hard to get. The small boy probably has not noticed the shortage as yet.—Detroit Free Press.

The residents of Mexico City must envy the foreign diplomats their opportunity to flee from the wrath to come.—St. Louis Globe Democrat.

A St. Louis complaint is that the youngsters save up their pennies until they get five and then crowd the jitney buses. But why should joy-riding be restricted to grown-ups?—Pittsburg Gazette Times.

Elihu Root has never been noted for his sense of humor, but perhaps even he will appreciate the drollery, if not the pathos, of the public belief that, as the controlling force in the New York Constitutional Convention, he can, if he will, give to that body an inspiration of progress and justice.—New York World.

A pessimist is the person who is seasick during the entire voyage of life.—Pittsburg Chronicle-Telegraph.

The progressive Kansas City Star does not attempt to conceal the fact that it does not think much of the talk which Senator Weeks, of our State, made before a commercial body in that city.—Springfield Republican.

The Sultan of Turkey never makes any announcements that he is thinking of going to the front and leading his troops.—Washington Star.

"Professor Taft convulsed the lunchers (in Boston) with a series of brilliant sallies." The Professor is having such a good time in life that it is cruel to suggest putting him back in the White House.—Providence Journal.

The use of gill nets to catch submarines is another unforeseen application of first principles in modern warfare.—New York Evening Sun.

The Kaiser is coming 'round reluctantly to the belief that if there were as great a General in Heaven as there is in Germany the victory could be won.—Louisville Courier-Journal.

An aviator was flying across a state when a monkey wrench which had been fastened to the seat of the aeroplane was jarred loose in some manner and fell.

A motorist who had lost his way was speeding along a strange country road when the wrench dropped from the aeroplane, struck him on the head and killed him instantly.

The chances of the monkey wrench falling at all were about one in 100,000. The chances of the aviator being in that identical spot when the wrench fell were about one in 100,000,000. The chances of the motorist being directly under the wrench when it landed were about one in 900,000,000,000,000.

And when they searched the motorist at the morgue they found that he wore a four leaf clover in a stickpin, a swastika on his watch chain and a rabbit foot on his key ring. And he had a lucky stone in his pocket, and there was an old horseshoe nailed on to the seat of his automobile.

TOILING ON.

We are evermore forgetting that our stay on earth is brief, and we waste the time in fretting, hunting for all kinds of grief, making moan about the weather; magnifying every ill, as we toil along together to the boneyard on the hill.

All our little griefs and worries will forsake us in a day; every dark affliction hurries, anxious to be on its way, but we lasso it and tether it to the boneyard with the dump. There's so much to make us joyous there's so much that's good and bright! There's so little to annoy us if our hearts were only right! Why bawl forth, from lungs of leather, protests fierce, when all is well, as we toil along together to the boneyard in the dell? WALT MASON.

Cummings A Candidate.
Senator A. B. Cummings of Iowa is an avowed candidate for the Republican nomination for President next year. His candidacy is interesting beyond that of the other names that have been mentioned thus far for the reason that he represents the insurgent wing of the Republican party. He may, in a sense, be regarded as its leader much as former Senator Root may be considered the leader of the other wing.—Zanesville Signal.

WOULD BE PROTECTED UNDER CIVIL SERVICE RULES BY BOHM MEASURE.

Question of Amending Vonderheide Conservancy Law is Again Put Up to Senate.

(ASSOCIATED PRESS TELEGRAM)

Columbus, April 13.—The question of amending the Vonderheide conservancy act was put up to the senate once more today when the judiciary committee decided by a vote of 6 to 4 to report out the new Garver bill without recommendation. This would change the present flood law by making directors of the conservancy district elected by counties and give the property owners the right to dictate whether they will sell or lease land needed for the conservancy plans.

Those voting for the motion to report out the Garver bill were Senators Pink, Carson, Wickline, Myers, Moore and Archer. Those opposing the motion were Senators Lynch, Vollenweider, Gilmore and Lloyd. Senator Gilmore tried to get the committee to postpone indefinitely the measure. Senator Garver is expected to ask that the bill be made a special order for some day next week.

School teachers would be protected by civil service and could not be dismissed except for inefficiency, malfeasance or immorality, only in cities of more than 50,000 population, according to the Bohm bill as amended by the house public schools committee today and reported out with recommendation for passage. The provision to limit the application only to the larger cities was added at the request of representatives of school boards in smaller cities of the state.

The house taxation committee voted to report out the Pence bill, providing for reduction of automobile dealers' license fees from \$20 to \$10 and of motorcycle dealers' fees from \$10 to \$5 annually.

In a public hearing on the Platt-Elis bill, to license drugless healers held before the senate public health committee, a number of representatives of non-medical cults expressed opposition to the bill on the ground that they feared examinations to be given by the state medical board necessary for the purpose of forcing out certain practitioners. Officers of organizations of most of these drugless healers spoke for the bill. No action was taken.

RAE TANZER'S SISTERS
PLEAD NOT GUILTY TO
CHARGE OF PERJURY

(ASSOCIATED PRESS TELEGRAM)

New York, April 13.—Miss Rae Tanzer's two sisters, Dora and Ruth, entered pleas of not guilty today to indictments charging them with perjury. The young women are charged with having sworn on the witness stand that their sister's suitor was James W. Osborne, former assistant district attorney of New York; that he called often at the Tanzer home in the Bronx under the name of Oliver Osborne; and that he gave her jewelry which he later took back. Rae Tanzer has admitted that she made a mistake and that James W. Osborne and Oliver Osborne are not the same man.

When arraigned before Federal Judge Cushman, the Tanzer girls voiced their own pleas of not guilty. They were ordered held in \$2,500 bond each. Their lawyers, Harold Speisberg said this would be furnished. More indictments were expected when the grand jury meets late today to continue its investigation of the circumstances under which Rae Tanzer filed her \$50,000 breach of promise suit against James W. Osborne. Miss Tanzer is under bond on a charge of using the mails to defraud. Her suit was withdrawn when she admitted her mistake in identifying Mr. Osborne.

BOMBARDMENT
TURKISH CAMP
BY THE FRENCH

(ASSOCIATED PRESS TELEGRAM)

Paris, April 13.—The Marine ministry issued the following statement today:

"Yesterday a battleship, in connection with French sea planes, bombarded the important Turkish encampment in the neighborhood of Gaza."

The bombardment of Gaza marks the development of hostilities in a new quarter. Gaza is in southern Palestine, near the Egyptian frontier. The city lies two miles inland from the Mediterranean and 48 miles southwest of Jerusalem. The Turkish encampment near this city may have been established in connection with the advance of Turkish troops across the Sinai peninsula to the Suez canal.

RHEUMATISM IN ANKLES

One Bottle of Rheuma-Relieved Woman Who Could Not Walk.

Marvelous as this story may seem, it is absolutely true; but this is only one of the many almost magical cures that Rheuma is performing these days. Use of one bottle will convince any sufferer.

Mrs. Gertrude Kozel, Smithfield, Pa., writes: "I had rheumatism for over a year; it settled in my ankles and I could not walk. I have taken one bottle of Rheuma and do not have any more pain, and I can again walk at will."

T. J. Evans and all druggists sell Rheuma for 50 cents. It is guaranteed to cure any case of any kind of rheumatism or money back.

Gratifying relief comes in a day, because Rheuma acts at one time on the kidneys, stomach, liver and blood, and starts to rid the entire system of poisonous uric acid at once.

CONTRACTS GIVEN
FOR RAILROAD
CONSTRUCTION

(ASSOCIATED PRESS TELEGRAM)

Columbus, April 13.—The contracts for the building of 28 miles of railroad for the C. & O. north from the Ohio river to Waverly, costing about \$2,500,000, have been tentatively let. M. J. Caples, vice president of the C. & O., have announced that the final contract will be awarded some time during the present week. The tentative contracts have been let to W. W. Boxley & Co., of Roanoke, Va.; Winston & Co., Richmond, Va.; and New York; Rinehart & Dennis Co. of Charlottesville, Va., and Robert Green Contracting company of Pittsburgh.

This work is for grading and masonry work on the railroad. Work will be commenced within thirty days after the final contracts are awarded.

BRIGHTS DISEASE
TAKES L. B. MUNCH,
EAST END MAN

Lincoln B. Munch, 49 years old, former employe of the B. and O. railroad company, ex-clerk of the city council, more recently connected with the health department, died Monday afternoon at 4 o'clock at his home, 395 Florence street, following an illness of nearly four weeks of Bright's disease. He was conscious almost to the last and though very ill, it was not thought by members of the family that the end was so near.

He had been in ill health for several years though he had been able to work most of the time. About the first of the year he was selected by the board of health to act as sanitary officer to succeed the late John W. Adams, who died after a brief illness of pneumonia. He served in this capacity until about the time he was seized with the last illness.

Mr. Munch was prominent in local political and Masonic circles. He was honored several times by the Republican party, having been elected member of the school board, served as clerk of the city council, and was appointed a member of the board of elections.

He was elected to membership in Newark Lodge, No. 37, F. and A. M., in April, 1895.

He was born at Seven Mountains, Shenandoah county, Virginia, March 23, 1866, and came to Licking county in April, 1889. For five years he taught school near Hanover and in 1895 he took a position with the B. and O. railroad company continuing with that company for about 15 years.

At the time he left the railroad service he was chief labor clerk in the office of the master mechanic.

He was united in marriage April 21, 1912, to Miss Pearl Huffman of this city. To this union were born two children, Paul and Gladys, who with the mother and five brothers and sisters, survive. The brothers and sisters are James Munch, Mrs. Minerva Mohlen, Mrs. Rachel Keller, Mrs. Effa Boyce, Mrs. Ann Barr, all of Virginia. The funeral services will be under the auspices of the Masonic bodies and will be held at the home Thursday afternoon at 2 o'clock, Rev. Charles Laughlin of the East Main Street M. E. church officiating. Burial at Cedar Hill cemetery.

William Koch, 79 years old, retired B. & O. conductor, who has been living at Hebron since he left the railroad service thirty years ago, died Tuesday morning at 9 o'clock at the Newark Sanitarium after an illness of pneumonia. He was brought to the Sanitarium early Saturday morning in a very serious condition.

Mr. Koch was born near Millersburg, Holmes county, and came to Newark in early manhood. He entered the service of the B. & O. railroad and gradually worked himself up until he was given a passenger run. He served in this capacity until he was retired thirty years ago. He purchased a farm at Hebron and spent his declining years looking after the work on this place.

A brother, Edward Koch, of Cedar Rapids, and two nieces and two nephews are the only surviving relatives. His wife died about a year ago.

His body was taken to the Bradley morgue and prepared for burial. It will be taken to Millersburg for funeral and burial. Arrangements

William H. M. Bradley.

William H. M. Bradley was born August 20, 1828, in Page county, Virginia. He moved to Ohio about the year 1858. He has lived in Licking county ever since that time. He was a carpenter and contractor by trade. He was married three times—the last time in the year 1889 to Miss Lucretia Hisey. There survive him from the second union five children, three sons and two daughters. They are as follows: M. H. Bradley, Richmond, Ind.; Mrs. Emma Skinner, Mancelona, Mich.; R. R. Bradley, Garrett, Ind.; C. E. Bradley, Jersey City, N. J.; Mrs. Augusta Blake, Coshocton, O. He also leaves to mourn his departure his widow, Mrs. Lucretia Bradley, and two sisters—Mrs. Jennie Rittenour, of Newark; and Mrs. E. E. Lees, of near Newark.

Mr. Bradley was a veteran of the Civil War, being a member of Co. F, First Regiment U. S. Veteran Volunteer Engineers. He died April 6, 1915, aged 86 years, 7 months and 16 days. The funeral service was held from the Brushy Fork church, near his home, Thursday, April 8, and interment was made in Cedar Hill cemetery, Newark, W. D. Ward officiating. It can be truthfully said of Mr. Bradley that he was a man of strong, sterling character. He was a kind husband, and an almost ideal father. As a neighbor, he was thoughtful and generous; and as a citizen, faithful to all of his duties and highly respected by all who knew him. The memory of his life will be an inspiration and a blessing to many.

AMBULANCE BUSY
FOR AN HOUR IN
EMERGENCY WORK

Three calls in less than an hour kept the crew of the Bazler white ambulance busy Monday afternoon. An accident to Mrs. Robert Anderson, and to a man named Alexander and the serious illness of Orlando Moser, made the services of the ambulance necessary all within the period of an hour.

Mrs. Anderson, who lives in Bremen street, caught the heel of her shoe in the frog of the street car track near the Emerson corner about 3 o'clock Monday afternoon. Her leg was badly twisted and she was removed to her home.

Orlando Moser, while walking in Second street, near Locust, was taken suddenly ill with a hemorrhage of the lungs and was rushed to the Newark Sanitarium.

A man giving his name as Alexander, suffered a badly crushed foot when he was run over by an automobile at Locust and Clinton streets. He was riding a bicycle, holding to the fender of the automobile. As the machine turned the corner, Alexander was crowded into the curb and fell beneath the wheels of the machine. He was hurried to the Newark Sanitarium where it was found that his foot was crushed.

Roths Original Atlantic

City Salt Water Taffy

The Roth Brothers are here and are now busy installing their machinery preparing to making the famous taffy which you may sometime have sampled it at Atlantic City. The work is done by machinery, and is sanitary. The electrical machine is something new here. It does the work very rapidly and in a sanitary manner. You will find it very interesting to watch.

The cutting machine clips off the Taffy very rapidly at the rate of 14 per second.

Mr. Roth invites you to come in and sample his taffy as soon as they are started which will not be later than Wednesday morning.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

LET SENTANEL LAXATIVES
DO YOUR SPRING CLEANING

Wonderful Little Performers, 10c

Like your house, your system needs a little special attention in the spring. Winter has left your bowels clogged, your liver lazy, your blood impure; you need a good inside housecleaning.

Sentanel Laxatives will do the trick. And do it without pain or griping. They work more effectively than the ordinary cathartic, for they not only clean out the nasty, noxious poisons, and put your liver back on the

job, but they tune up the whole system so that you feel simply great!

There's not a bit of mercury (calomel) in Sentanel Laxatives. They are made entirely from old-fashioned, time-tried herbs and plants that are used by physicians daily. Have your druggist send you a box. 10 doses 10c. Get them busy tonight. Your money back if they don't quickly make good. The Sentanel Remedies Co., Inc., Covington, Ky.

Chicago Grain.

Chicago, Apr. 13.—Decreasing of stocks in Europe tended today to strengthen the wheat market here. Liverpool dispatches told of prospects that arrivals there would be lighter and that the demand would continue to be active. back but the effect on prices failed to last. After opening 3¢ cent to 3¢ cent higher, the market underwent a material sag, but then again advanced. Good developed business with wheat. Trade, however, was light. The opening which ranged from 3¢ cent to 3¢ cent higher, was followed by a slight reaction.

Favorable weather for seeding and growth had a bearish influence on oats. The strength of other grain though, acted as something of an offset. Provisions eased off, despite higher prices for hogs. A good deal of commission house selling appeared to be responsible.

Wall Street.
(ASSOCIATED PRESS TELEGRAM)
New York, Apr. 13.—Establishment of another record by Bethlehem Steel, which rose to 127, two points above its previous high price, was the noteworthy feature of today's early market. The stock was soon lost, however, and the movement elsewhere was again indicative of selling for profit and recovery of professional operations for the future. Rock Island rose over a point in recognition of the new interest in the board, but soon registered a material loss. Numerous specialties, including equipments and industrial rose one to two points. Trading was active with reactionary tendencies before the end of the half hour.

Bethlehem Steel held first place throughout the first hour, advancing 1½ points to 133½. In the second hour it rose to 142, an overnight gain of 13 points. Contrary to recent days the balance of the market was not adversely affected by the movement in Bethlehem Steel, but gathered greater strength, especially in U. S. Steel, Amalgamated and other leaders, where gains of one to two points were made. Peace rumors which had their origin in official quarters at Washington were used as a basis for the revival of activity.

Bonds were steady.

WILSON MAKES NO COMMENT ON NOTE
(ASSOCIATED PRESS TELEGRAM)
Washington, Apr. 13.—When asked today about the memorandum recently presented by Count von Bernstorff, the German ambassador, concerning the attitude of the United States on the shipment of foodstuffs and the exportation of arms, President Wilson had no comment to make other than that a reply was being prepared by the state department.

26 DAYS EACH MONTH,
12 MONTHS EACH YEAR,
FOR TWENTY-ONE YEARS

We have one of the most up-to-date and completely equipped optical parlors in this part of the state, with this equipment capably handled by our competent optometrist, who has given entire satisfaction for twenty-one years continuously in this city. This is vouchered for by thousands of satisfied customers.

We are able to make a most thorough and scientific examination of the eyes, using the latest improved instruments for which we make no charge.

We do not have to misrepresent in our assertions what we do as traveling (so-called opticians) do, who come to our city for a few days, using the reputation of some local business man to advertise their fake methods. The misguided and deceived business man who harbors these traveling opticians are supposed to stand the blum of their mistakes. What is the result? The one who sold the glasses has gone and after all you have to go to a reliable local optician to have the proper corrections made.

Our reputation has been established for twenty-one years and you know you get value received for money spent with us.

ACRE LOTS.

I have ten choice acre lots on Harrison avenue, and Sixteenth street, between Granville and Church streets. Will sell single or as a whole. The land is good, rich soil, perfect for gardening and truck raising. Ideal for profitable suburban home. Six acres have already been sold off of this track of land. All these owners what they think of their purchase. Look them over and buy now, even though you are not ready to build, a crop on them will go a long ways toward paying for them this season. Price right, you can't equal them.

Your Children's Musical Education

Musical education is more than ability to manipulate the keys of a piano. It is musical appreciation and ability to produce real music from the instrument. This means training the eye and the ear as well as the fingers, and the finest toned piano should be used from the beginning.

Start your children's musical education with a piano selected for beauty of tone and responsiveness of action.

Crown Pianos

have such a pure, even tone that they are ideal for awakening the proper appreciation. The action responds to all variations of touch, so that fine control can be developed in the student.

The Crown, a fine musical instrument, may cost more than some other makes—but you are buying it for a lifetime of service, and it requires no greater immediate payment than you care to make. A few payments more or less is the only difference to your pocket, but the character of the instrument is of great importance in the education of your children.

Send for our booklets which explain piano value, also what to look for in the selection of an instrument for your home. These booklets contain real piano information, and guided by them you are sure to select good piano. They are FREE for the asking. Mail the Coupon TODAY.

SERIOUSLY HURT BY INTERURBAN EARLY TUESDAY

Columbus April 13.—Harry Schiff, living near Reynoldsburg, received injuries which will probably prove fatal, early today when a wagon which he was driving was struck by an eastbound Ohio Electric traction car about six miles east of Columbus, killing his horses and reducing the vehicle to splinters.

The crew in charge of the car was composed of Conductor Wyant and Motorman Blackwell, both of this city. No details of the accident had been received up to noon today at the Newark offices of the Ohio Electric.

COUNTY BANKS GIVEN USE OF PUBLIC FUNDS

Bids were opened yesterday afternoon by County Commissioners Ben H. Jones, Jos. H. Orr, and Frank R. Dunn for the use of county funds by the various financial institutions of the county for a period of approximately three years, beginning May 1, 1915 to March 1, 1918. The following awards were made:

Licking County Bank and Trust Co., two-fifths of said funds at two and one-tenth per cent per annum.
Newark Trust Co., one-fifth of funds at two and one-hundredth per cent per annum on daily balance.

ORGANIZATION TO IMPROVE BREED OF LICKING CO. COWS

On Monday Prof. Oscar Erf, head of the dairy department of the agricultural college of Ohio State University, was in Newark and assisted in the organization of the Licking Cow Improvement Association. The new association has 26 members, dairy men of the county, and has for its object the improvement of the dairy cattle.

The association will hire what is known as a tester, whose business it will be to make a test of each herd of cattle owned by the members. The milk will be weighed, the amount of feed consumed by each animal estimated, and a test will be made of the amount of butter fat in the milk. The tester will be hired by the year, and his deductions will enable the members to ascertain the amount of profit made during the year and the respective value of the cattle.

Officers and directors of the new association were named as follows: President, J. C. Stevenson; vice president, William C. Hall; secretary and treasurer, W. C. Miller. Directors, Harry Neely, Dr. A. E. Best, W. C. Dalbey, and John Lamb.

NO PEACE PROPOSAL TO PRESIDENT FROM POPE BENEDICT XV.

Washington, April 13.—Commenting on a published statement of Pope Benedict that the latter had indicated a desire to support any move of the United States might make for peace, President Wilson declared today that intimations of this character had been frequently conveyed to him through different persons. He said, however, no formal communication had come to him on the subject.

Asked whether the United States recently had learned officially or unofficially of the terms upon which the belligerents might be ready to make peace, the president said regretfully there had been no basis whatever so far as he knew for the rumors to that effect.

While the United States government was not consulted in connection with the International woman's peace conference at The Hague, the president indicated today that the movement had his sympathetic support. Although the meeting has no official status, Mr. Wilson said he understood the delegates had not asked for official authority because they preferred to act unofficially.

FEEBLE MINDED BOYS CAPTURED IN PATASKALA

Marshal George W. Kane, of Pataskala, O., picked up a young lad on the streets of that village yesterday afternoon who could not give a satisfactory account of himself. Marshal Kane brought the boy into juvenile court and Judge Robbins Hunter was soon convinced that he was one of nine boys who had taken French leave of the feeble-minded institution at Columbus several days ago. The officials of the institution were telephoned and one of them came over, identified the lad and returned him to Columbus. This morning of the lads and Judge Hunter telephoned him to get into communication. Marshal Kane captured another one with the authorities and have an officer of the institution come to Pataskala after him.

PERFECT WEATHER FOR OPENING OF SOUTHERN LEAGUE.

(Associated Press Telegram) Atlanta, Ga., April 13.—Perfect baseball weather attended the opening today of the Southern Association's 1915 season. The day was an official half holiday in the four cities where opening games were played.

At Memphis, city officials and business men headed by a band paraded through the downtown district before the game.

Governor Rye pitched the first ball before the game at Nashville. Games today were Chattanooga at Nashville, Little Rock at Memphis; Birmingham at New Orleans; Atlanta at Mobile.

APPEAL MADE TO GOVERNOR TO SAVE MAN FROM THE PEN.

(Associated Press Telegram) Columbus, April 13.—Enos C. Hershberger, convicted of having improper relations with a 15-year-old girl by the Stark county courts and refused a new trial by the supreme court, today appealed to the governor to save him from penitentiary sentence. Accompanied by a detective, said to represent a widely-known agency, Hershberger filed a long statement in which he declares he is the victim of blackmail.

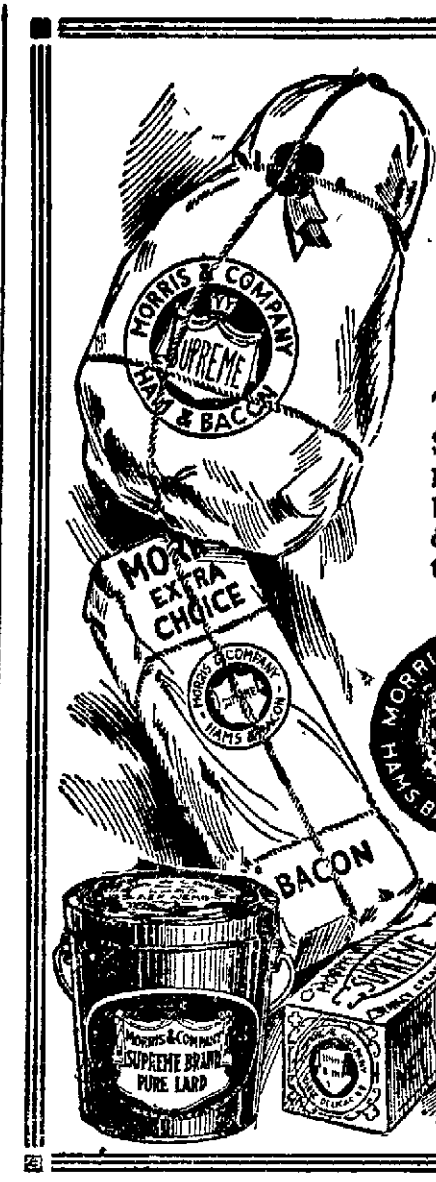

QUICKLY STOPS HEAD COLDS AND SNUFFLES

Catarrhal Germs Cause of Most Colds. New Germicidal Air Treatment Best Remedy For These Common Afflictions.

Reliable authorities say that upwards of 90 per cent of the so-called colds in the head and throat are in reality dangerous indications of the presence of acute catarrh. When you hear a person sneeze or cough its almost certainly they are throwing catarrhal germs into the air for some other person to breathe and its just as certain that the person breathing these germs will soon have catarrh or a catarrhal cold. The time to make these germs harmless and drive out your catarrhal cold is the very instant you feel a desire to sneeze or cough, or start to snuffle and wipe your nose every few minutes.

The quickest and surest way to stop a head cold and drive catarrh germs out of your system is to pour a few drops of the oil of Hyomei (pronounced High-o-mei) into one of the Hyomei inhaling devices which comes with each large package and place the inhaler between your lips and breathe the germicidal but pleasant smelling air into your nose, throat and lungs. This air utterly destroys all catarrhal germ life, quickly opens the closed air passages, makes breathing easy, clears the head, cleans out your throat and ends your snuffing and nose blowing. There certainly is no quicker or more satisfactory way of breathing up a cold, even after it is well started, and a few weeks' use will do away with all danger of chronic catarrh. Sold by druggists everywhere including T. J. Evans who agrees to return the full purchase price to any who use it and are not satisfied. In buying Hyomei for the first time be very sure to get the large size which contains the inhaler as this is very essential for best results.

WALL PAPER

We Want To Share With Our Customers the Pleasure & Satisfaction

We take in the fact that our last month's business was the largest month of March of any we have ever had in our twenty-four years experience. This is largely due to the big Wall Paper and Window Shade trade which these departments have enjoyed. Our efforts to assemble the most complete Wall Paper stock have been unusually successful. It has been easy to convince our customers that the values we are offering are away ahead of anything else they have been able to find. Our sales people are experienced and painstaking. The variety—of styles, patterns and colorings you have to select from and the low prices at which our papers are marked is the reason we have broken all records this season. When possible come in the forenoons.

SAVE YOUR HAIR! IF FALLING OUT OR DANDRUFF---25 CENT DANDERINE

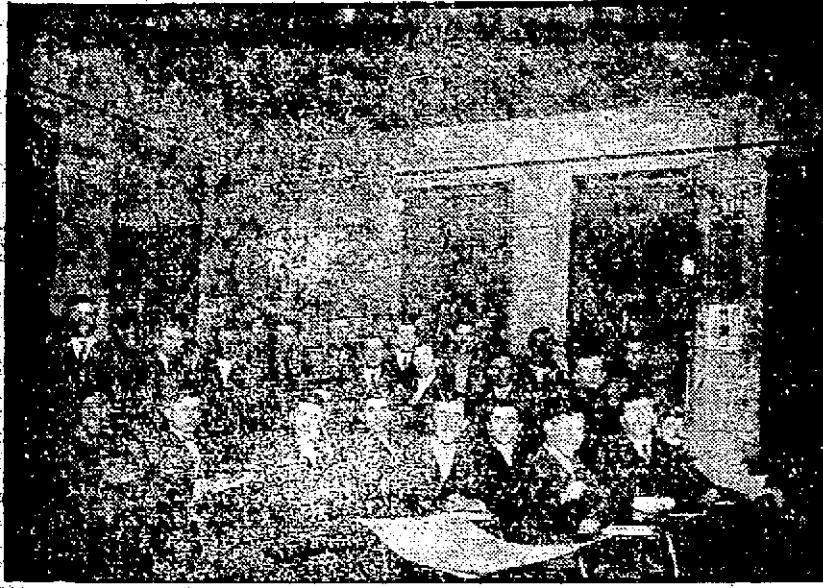

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

PEACE FLAG

FLOATED OVER SHIP BEARING DELEGATES TO WOMEN'S PEACE CONFERENCE

Which is to be Held at The Hague—American Representatives Will be Present.

ASSOCIATED PRESS TELEGRAM
New York, April 12.—A huge peace flag floated from a masthead of the Holland-American line steamship Noordam today, as the forty or more delegates from America went on board to sail for Rotterdam to attend the international women's conference at The Hague.

Miss Jane Addams of Chicago who led the delegation, said she had doubts whether it was permissible to fly the flag until she received last night a message from a representative who had consulted Robert Lansing, counselor for the state department at Washington. The message said: "Officially the United States can say

nothing as it is a foreign ship. But by all means."

The flag was a snow-white pennant, bearing the word "Peace" in blue letters. It was given by Mayor Mitchell of New York. Speaking of the flag at a farewell dinner last evening, Miss Addams said that "we cannot guess what a foreign submarine will do at the sight of a new flag to attack but we are sure in our conviction to do what we can for peace."

Friends of the peace movement and supporters of the peace movement who gathered at the pier discussed with some concern Miss Addams' intimation in her speech that the voyage might be attended with some danger, and that it was possible that the delegates might never reach The Hague. "The ship may be interned in some harbor and never reach Rotterdam," she said.

MAPLE AVENUE CHRISTIAN UNION

Sunday was another big day at Maple Avenue Christian Union chapel. The morning subject, "Christ And The Lonely," was calculated to reach the heart of all who at times are lonely, (and all of us find places in our lives where we feel very lonely), and help such to find companionship with Jesus at such times and places. Rev. Baker spoke of Christ being "a man of sorrows and acquainted with grief," that His cup was a cup of bitterness, that His path led to the cross and to the tomb, that His crown was a crown of thorns, and all that He might become our sympathetic companion throughout this life of human sorrows and tears.

The evening subject, "The Price to be Paid," was intended as a reminder of the duties of man to God, and of the requirements in order to have an abundance of the good things of God, "without money and without price."

Those who have nothing, need mercy most. And such will exhibit in their own persons the power of Divine grace. "The Lord makes evident the freeness of His grace to the fallen man. The most needy one is the one who will listen. Such an one will prize and praise offered mercy."

BOMBARDMENT OF OSSOWETZ DURING SUNDAY, REPORTED

ASSOCIATED PRESS TELEGRAM
London, April 12.—The following semi-official statement issued at Petrograd last night, is contained in a dispatch to the Reuter Telegram company:

"Ossowetz was bombarded throughout the day Sunday by 8-inch howitzers. The artillery of the forts replied, seriously damaging one of the enemy's siege batteries. The Germans tried to send four fire rafts against the forts but they were sunk."

"In the region of Jedwabno, there was active fighting in the trenches during which bomb throwers were used."

DIVERS TO DESCEND TO GREAT DEPTH IN LIFTING SUBMARINE

ASSOCIATED PRESS TELEGRAM
Honolulu, April 12.—George D. Stillson, chief gunner's mate, in charge of the diving operations for releasing the submarine F-1 submerged outside the harbor since March 25, said today four expert divers would probably make a descent tomorrow.

With the apparatus brought here yesterday by the cruiser Maryland and the use of a new method of supplying compressed air, Stillson said the divers would be able to work at any depth to 400 feet.

Apparatus will be completed today.

CHRISTIANITY HAS ENNOBLED JAPAN'S IDEALS OF WOMAN

[ASSOCIATED PRESS TELEGRAM] Tokyo, April 13.—Addressing a well-attended meeting of Japanese and foreign Christians held in Tokyo today to inaugurate an evangelistic movement preparatory to the international Sunday school convention of 1916, Count Okuma, the Japanese premier made the statement that Christianity had given Japan, among other things, a nobler conception of womanhood.

Continuing the premier made reference to the situation in European countries when he said: "There must be a wrong conception of the deity in Germany; otherwise this war would not have come."

What Is The Cost of a REFRIGERATOR?

The cost of a Refrigerator is not what you pay for it. The real cost is the amount of ice it requires to keep the food palatable. A good Refrigerator is the cheapest article you can buy; a poor Refrigerator, the most expensive.

Refrigerators with damp, leaky interiors are simply microbe breeders. They are worse than none at all. The interior must be dry and cool. The ventilation must be perfect. They must be cleanable. Every nook and corner must be easily reached. You have perhaps a certain space available. We can furnish the size you need at the price you want to pay.

We want you to see. To see is to believe. We want to explain detail construction, style, ice capacity, storage capacity, estimate in cost and ice quantity. All these questions enter into a full understanding concerning Refrigerators.

No matter what you select and whatever the price you pay, you get better quality and better value for your money at Parish's than elsewhere.

MAIL BOAT

CRUSHED IN ICE FLOES AND THREE MEN BROWNED IN SIGHT OF SHORE

Two Were Rescued After a Long Struggle With Ice and Waves in Wisconsin.

[ASSOCIATED PRESS TELEGRAM] Bayfield, Wis., April 13.—Three men were drowned and two others narrowly escaped death in Chequamegon Bay, within sight of shore late yesterday, when the United States mail boat between this city and La Pointe was crushed by ice floes. The dead:

Nels Clizen, sr. Clarence Wright and Charles Russell. All lived at La Pointe.

W. S. Johnson, carrier of mails between La Pointe and this city and Russell Angus, were rescued after a long struggle with ice and waves. Johnson's condition is serious.

Two La Pointe men, John Wright and William Peterson, went to the rescue of the drowning men and brought Johnson and Angus to shore. The other occupants of the overturned government boat were bumbled before the rescuers reached them and slipped into the water and perished.

All three of the victims are survived by large families. Their wives and children were among the crowd that stood helpless along the shore while the rescuers risked their own lives.

MURDER

tion in Mexico is not worse than the story of the first abolition in France. It is horrible in the extreme. Murder has been one of the minor faults, relatively speaking. Though attempts were made to do outrages against the sisters, they are now admitted, but the worst of it is that they are now left in a city for Vera Cruz during the American occupation. The train arrived empty. They were taken off by the revolutionists on the way.

"If the United States is to be the friend and sister of Mexico, to the citizens must rid themselves of a tradition of inherited prejudices, and substitute a spirit of understanding for a spirit of greed. There is more to be had in Mexico than oil concessions. I demand business enterprise for our machine guns and government."

"Mexicans need and we have the opportunity now of giving it to them by telling them fairly and honestly that we will help them."

Mexico needs 'good education.' Make every educational work free, under democratic and wise laws. possible in order that he may renew his merchant-raiding expedition.

When Collector of Customs Hamilton urged Captain Thierfelder to hasten the formal request for repairing his ship the captain said he would forward the letter just as soon as he could get an estimate from the civilian surveyors now at work. To complete the survey, it was said, it might be necessary for the ship to go into drydocks for examination of rudder and propellers.

"I do not want to delay any more than I can help," Captain Thierfelder reiterated. "I am anxious to get back to sea."

Collector Hamilton also took up with the German commander the question of naturalized Americans, aboard the Wilhelm as members of the crew. The captain assured him that there was no man aboard who did not wish to be there.

STATE DEPARTMENT GETS REQUEST FROM THE GERMAN EMBASSY.

[ASSOCIATED PRESS TELEGRAM] Washington, Ky., April 13.—The German embassy today transmitted to the state department a formal request of Captain Thierfelder of the auxiliary cruiser Kronprinz Wilhelm for permission to have his vessel examined to see what repairs were necessary to render her seaworthy and also for permission to have those repairs made.

The request is similar to that submitted recently in the case of the Prinz Eitel Friedrich, when that vessel put into Newport News.

Captain Boy-Ed, naval attaché of the German embassy, reached Washington early today after a conference with Captain Thierfelder. He probably will not find it necessary, it was understood here, to return to Newport News for further conferences, but will leave it to the shipper to arrange details with the American naval officers as to the time required to repair.

FIRE THREATENS DESTRUCTION OF KENTUCKY CITY

[ASSOCIATED PRESS TELEGRAM] Louisville, Ky., April 13.—Fire, which threatened to destroy the city, was reported under control. The courthouse and several business houses on Main street were destroyed. The loss is estimated at \$150,000.

COURT

SITTING AS A PRIZE TRIBUNAL DENIES IMMEDIATE TRIAL TO STEAMERS

American Packers Interested as They Had Millions of Provisions On Their Vessels.

[ASSOCIATED PRESS TELEGRAM] London, April 13.—Sitting in the prize court today, Sir Samuel T. Evans, judge of the court, denied trial to the Norwegian steamers Fridland, Kim, Alfred Nobel and Bjornstjerne Bjornson and fixed the hearing of these cases for June 7.

The courtroom was crowded with attorneys representing the ship owners and American firms having goods on board these vessels which have been held since November last. American packers had nearly \$3,000,000 worth of provisions upon these vessels.

The lawyers pleaded for an immediate trial, urging that the ship owners would be bankrupted by the continued delay, but the court acted on the plea of the crown counsel for further time to investigate.

WILHELMINA CASE HAS BEEN SETTLED.

[ASSOCIATED PRESS TELEGRAM] New York, April 13.—The case of the American steamship Wilhelmina loaded with foodstuffs for Germany and detained since February at Falmouth, Eng., has been settled. Counsel for the owners of the cargo announced today. The British government is to buy the cargo and compensate its owners for loss of anticipated profits in Germany.

Announcement to this effect was made by Norvin R. Lindheim and Charles A. Towne, counsel for the W. L. Green commission company of St. Louis, who owned the cargo. Messrs. Lindheim and Towne said that the amount to be paid British clients was to be fixed by a referee, who would be chosen by Ambassador Page and Sir Edward Grey.

An agreement with the British government provided for the purchase of the cargo and the payment of anticipated profits had been made on behalf of their clients, the lawyers said, and thus the prize court proceedings under which the Wilhelmina had been detained are brought to an end.

FRENCH REPORT ARTILLERY DUELS ONLY ACTIVITY

(ASSOCIATED PRESS TELEGRAM)
Paris, April 13.—(Via London).—The French war department official statement, given out this afternoon says:
"Between the sea and the Aisne, there is nothing to report, except a few artillery duels."
"To the east of Berry Au Bac, we gained possession of a German trench."
"In the Argonne there were minor operations and engagements of bomb and grenade throwing between our own and the enemy's trenches."
"Between the Meuse and the Moselle, our forces succeeded at several points in coming in contact with the wire entanglements of the enemy's defense."

(ASSOCIATED PRESS TELEGRAM)
Rome, April 12.—(Via Paris, April 13).—Caraszo Effendi, a member of the Turkish chamber of deputies and Midhat Bey, former secretary of the Turkish committee of union and progress, who arrived here last week, have left for Constantinople by way of Venice and Vienna, after interviewing Italian statesmen. They denied emphatically that their mission was in relation to a separate peace for Turkey. Before leaving, Caraszo Effendi said: "Turkey entered the war knowing what she was doing and is determined to go on to the end."

GERMANS REPORT BOMBS THROWN BY THE FRENCH

(ASSOCIATED PRESS TELEGRAM)
Berlin, April 13.—(By wireless to Sayville, N. Y.).—The German war-office has given out a report on the progress of hostilities dated April 13, which reads:
"The French yesterday attacked near Berry Au Bac and between the Meuse and the Moselle; near Maicery, which is east of Verdun; near Marcheville, which is southeast of Maicery; on the front between Maicery and Marcheville, and south of Hartmanns-Weilerkopf. Everywhere they were repulsed."

"The French are reported to have thrown 150 bombs upon the station and the foundry at Bruges, according to their own announcement. In reality nine bombs fell in the eastern suburbs of Bruges and two near Bruges itself without doing any damage."

"German troops have thrown large quantities of bombs into Poperinghe, Paezbroek and Kessel, towns occupied by British troops."

"At a point northeast of Suippe, the enemy again has made use of projectiles developing an asphyxiating gas."

"There has been fighting day and night in the forest of Le Pretre in which the Germans slowly gained ground."

"There has been no change in the eastern front."

LONDON VERSION IS DIFFERENT FROM THE ONE VIA SAYVILLE.

(ASSOCIATED PRESS TELEGRAM)
Berlin, April 13.—(Via London).—The German army headquarters today gave out the following announcement:

"In the western arena—The French assert they dropped 150 bombs on the railway station and near the beach at Ostend and on a foundry at Bruges. As a matter of fact, nine bombs fell in the neighborhood of Ostend and two in Bruges without doing any damage. In return we dropped numerous bombs during last night on the villages of Poperinghe, Hazebrouk and Kassel, which are occupied by British troops."

"At Bergat, French troops penetrated into one of our trenches during the night, but were immediately repulsed. An attack by aviators of the enemy in the region to the east of Reims resulted in failure."

"To the northeast of Suippe shells developing asphyxiating gases again were used against us."

"Between the Meuse and the Moselle, the French continued their attack at certain places with great fierceness, but without success. Three attacks during the early morning at Hatzerey near Verdun, broke down under our fire with very heavy losses."

"Attacks were commenced during the afternoon and evening at Marcheville, southeast of Maicery during which the enemy brought up strong columns. They came to an end with the same result. An attack was begun at daybreak against the front, between Maicery and Marcheville, but was repulsed with very considerable losses to the enemy."

"In the forest of Le Pretre, fighting at close quarters took place throughout the day and night of yesterday, during which we gained ground slowly."

"A French attack last night at a point south of Hartmanns-Weilerkopf was repulsed."

"There has been no change in the eastern arena of hostilities."

There is a discrepancy in the translation of the German official statement as transmitted by way of London compared to the statement by wireless; the wireless version refers to the eastern suburbs of Bruges, while the London account translates the same word into a reference at Ostend.

GENERAL PAU IS SURE OF SUCCESS OF ALLIES' ARMS

(ASSOCIATED PRESS TELEGRAM)
Paris, April 13.—General Gerald Pau, who returned to Paris yesterday, after a journey to Russia, Serbia and other Balkan states and Italy on a political mission, had this to say of his trip:

"I bring back from my long journey of two months the best of impressions and absolute confidence in the final success of the arms of the triple entente."

You never can tell. Many a man is all right in his way, but it's the wrong way.

FOR BEAUTIFUL HAIR, NOURISH THE SCALP.

Dandruff must be removed and the hair roots nourished to stop falling hair and itching scalp. It is unnecessary to have thin, brittle, matted, stringy or faded hair. No matter how unsightly your hair, how badly it is falling, or how much dandruff, simply rub Parisian Sage well into the scalp and it will be all that is ever needed. The hair roots are nourished and stimulated to grow now hair. Even all dandruff is removed with one application, itching scalp and falling hair cease; the hair becomes soft, fluffy, abundant, and radiant with life and beauty.

Parisian Sage, a daintily perfumed liquid, is one of the most pleasant, invigorating and refreshing hair tonics known, yet perfectly harmless and inexpensive. After the first application you will be surprised and delighted with Parisian Sage, for there is nothing that will so help to double your present attractiveness as luxuriant, glorious hair, and this tonic treatment is all that can possibly be desired.

Be sure to get Parisian Sage from T. J. Evans, or at any drug counter, as there is no other so effective.

Granville

(Special to Advocate.)

Granville, April 13.—The Travelers' club closed its official year with the annual banquet, which was held last evening in the parlors of the Presbyterian church. The four course dinner was deftly served by the young girls of the Christian Endeavor society, and an atmosphere of geniality pervaded throughout the evening. At the after-dinner symposium, the president, Mrs. W. E. Clemens presided with her accustomed grace and charm, and after her little introductory talk, presented the following interesting program: Songs, "The Travelers' Club" (written by Mrs. Robert Biggs), The Club: "Home Again," Mrs. Jacob Speicher; "To the New President," Mrs. M. E. Stickney; "From the ex-President's Point of View," Mrs. E. P. Cook; "From the New Member's Point of View," Mrs. Anna Campbell; "From the Man's Point of View," Mrs. Lucy E. Van Kirk; "To Our Husbands Who Would Like to be Club Women," Mrs. W. E. Clemens; "The Club and the Federation," Mrs. I. S. Kull; "Looking Ahead," Mrs. K. S. Hines; "Blest Be the Tie That Binds," The Club.

The Engwerson Chorus rehearsal in Rectal Hall began last evening at 8:15, which will continue to be the hour of meeting until the close of the semester's work. Members are urged to be prompt. The time is short, and every moment counts in the brief period allotted for practice. Members of the chorus can hardly afford to miss even one more rehearsal.

At the Senior B. Y. P. U. meeting in the Baptist church this evening, Mr. Arthur Wickenden is to be the leader. All young people are cordially invited. At 7 o'clock the evening session of the Ministers' Conference will be held in the auditorium of the Baptist church, Rev. D. C. Gilmore, D. D., of Burma, presiding. The subject of the address by Prof. Bunyan Spencer will

The cast for the annual comic opera to be produced as the next number on the Granville Music course, will contain the names of practically all the principals who made the "Mikado" performance such a success last year. The opera to be given is the extremely popular and pleasing "Pirates of Penzance." Coach Livingston as the King of the Pirates, will have a role admirably suited to his voice and physique. Mrs. Theodore Johnson and Mr. Russell Williams will sing the leading soprano and tenor solos. These names assure a brilliant performance. A large chorus and orchestra, with special scenery will add to the effect. Two performances will be given, May 11 and 12 in Recital Hall. This change of dates is necessitated by the D. D. D. performance.

Newark patrons and holders of course tickets will please note the change.

Next Wednesday evening, April 21, the fourth number of the Historical Recital Series of Denison Conservatory will be given in Recital Hall. This will be an illustrated lecture on Liszt and Weimar by Karl Eschman, assisted by members of the Conservatory faculty.

SPEED PITCHER
SIGNED UP BY
MGR. WREATH

Dorsey Jones is the first player to affix his signature to a contract with the Newark club in the new Buckeye league. His agreement was received by Manager Paul B. Wreath at Allentown, Pa., according to word received today from Mr. Wreath.

Jones was the best bet among the pitchers for the University of Virginia two years ago and made his first break in professional baseball when he signed with Clarksburg, W. Va., in the Pennsylvania-West Virginia league. This league lasted but a few weeks but Manager Wreath denies that it was the terror in the hearts of the players on other teams after seeing Jones work, that caused the collapse. He charged the destruction of the league to internal dissension.

Jones played under the management of Hugh Shannon who forsook the playing end of the game to tell how it should be done and Shannon is now writing sport dope for the Erie, Pa., Dispatch.

He tells Wreath that Jones is a corner, that he has speed, a jump on the ball, and good judgment. He is said to be so good in stick work, that he was played in the outfield when not pitching, so his team could get the benefit of his hitting and base running. More power to Jones.

Wreath states that he expects to land Jimmy Mack who hails from Buffalo, N. J., which by the way, isn't on the map. It may find a place on the honor roll after Jimmy reaches Newark and makes a name for himself and his home town.

Mack is an infielder with speed, hits around .270, runs the bases in a manner that reminds Wreath of Ty Cobb. Mack is slated for the position of field general if Wreath succeeds in landing him.

Wreath has been advised that the schedule meeting will be held in Akron next Monday and the Newark manager expects to be on the job to see that Newark gets none of the worst of the deal at the hands of the schedule committee. The league president has also asked the Newark club owner to visit some of the towns which were considered as the sixth team in the circuit, though announcement from Akron indicates that Mansfield has already been selected to make this sixth city.

Wreath is pleased with the attitude of the Chamber of Commerce at Marion, which has taken the Marion club under its wing and promises a half holiday on the opening date. He calls that the real booster spirit. While he doesn't suggest such action by any Newark organization, he no doubt would be pleased if Newark merchants and their employees got the baseball fever badly enough to abandon the cares of business for the opening date.

May 15 was selected as the tentative opening date but it is not improbable that the league magnates overlooked the fact that this date falls on Saturday.

Mansfield should make a good city for the sixth club in the circuit. It would mean much in the saving of traveling expenses which should be an important calculation of the club owners. Mansfield usually is a good baseball town.

The HOME Building Association Co.
NEWARK, OHIO.

To Our Women Patrons

This Home Building Association Company extends every courtesy and aid.

There is nothing mysterious or complicated about a saving fund in this "Old Home," and there is no reason why more women should not derive the same benefits from a plan of regular saving here that their husbands and brothers do.

In fact, many of our most thrifty, most valued patrons among the thousands who save here are women.

We gladly welcome new patrons, and the woman who comes to start her account here with one dollar or more will receive every attention.

Gen. Huerta As He Arrived In the United States

General Victoriano Huerta, sometime dictator of Mexico, and perhaps the strongest man who has appeared there for years, arrived in New York this week, and found no trouble landing. Despite efforts of some of his enemies in Mexico, the immigration authorities did not hold him up. They fear that he has come here to begin a new propaganda looking to his re-establishment in power. The general, of course, denied this. But the importance of his visit was fully recognized by the Mexicans in New York.

MANSFIELD IS
SIXTH CITY IN THE
BUCKEYE LEAGUE

Akron, O., April 14.—Al Lawson, the man financially back of the Akron's professional baseball team of the Buckeye circuit, is on the lookout for a player-manager as well as players for his club. He is in Akron and ready to consider applications. Every job on the team is open to candidates.

Mansfield was reported to be the sixth city in the Buckeye league, completing the organization. Akron, Canton, Lima, Marion and Newark are the other cities.

Joe Jeanette Wins From Langford In Twelve Rounds

Boston, April 14.—Joe Jeanette of New York defeated Sam Langford of this city in a 12-round bout last night. The negro heavyweights mixed freely, but Langford's apparent lack of condition gave his opponent an advantage.

The advantage of being weather-wise is in knowing just when to borrow an umbrella.

CANTON SIGNS
KUNKLE FOR
BACKSTOP JOB

Canton, O., April 14.—Three more players were signed Tuesday by F. G. Paige, promoter of the local team in the Buckeye league.

Albert "Pie" Decker, of Canton, a veteran Central leaguer will try for an outfield berth. Karl Abbott, a product of Lancaster, O., standing six feet and weighing 170 pounds, also will try for one of the garden berths, while Harry Kunkel of Cincinnati, has been signed as a catcher. Kunkel was with Morristown, Tenn., last season, and in 1908 he received his first professional engagement with William Phillips at East Liverpool.

"I am pleased with getting in touch with these players for they have had the needed experience," said Paige. "Decker informs me he has line out for several capable players who reside in Cincinnati."

SHAKESPEARE WAS
A BASEBALL FAN

There is now no further doubt that Shakespeare was an ardent baseball fan. The Catholic Columbian has compiled the following excerpts from Shakespeare's plays to prove the fact:

1. "I will go root"—Richard II.
Now you strike like the blind man.
—Much Ado About Nothing.
Out, I say.—Macbeth.
I will be short.—Hamlet.
Then can't not hit: hit it, hit it.
—Love's Labor Lost.
He knows the game.—Henry VI.
O, hateful error.—Julius Caesar.
A hit, a hit, a very palpable hit.—Hamlet.
He will steal, sir.—All's Well that Ends Well.
Whom right and wrong have chosen as umpire.—Love's Labor Lost.
Let the world shide.—Taming of the Shrew.
He killed a fly.—Titus Anthonius.
The play as I remember pleased not the million.—Hamlet.
What an arm he has.—Coriolanus.
Upon such sacrifices the gods themselves—Circus incense.—King Lear.

OPENING GAMES OF NATIONAL AND AMERICANS FAVORED BY WEATHER.

President Wilson Officially Recognizes America's Pastime by Tossing First Ball.

(ASSOCIATED PRESS TELEGRAM)
New York, April 14.—For baseball fans throughout the country this was the most memorable day of the year, the day for which they had waited six long months, the day of the opening of the big league season. The Washington weather bureau promised fair weather to greet the thousands who were to gather in baseball parks in the East and the West to welcome old favorites and new faces on the diamond.

All the disputes and legal tanglements of the winter were temporarily thrown into the discard so far as the spectators were concerned at the signal to play ball. In accord with the ancient custom, the great game was to receive official endorsement by President Wilson in Washington, in tossing the first ball upon the diamond while Mayor Mitchell in New York and other officials in various cities performed similar functions.

President Tener, of the National league planned to attend the opening game of the New York and Brooklyn clubs at the Polo grounds here. The league's president was in an optimistic mood.

"I feel that this race will be the closest we have ever fought," he said. "Our strength is well matched. Boston and New York, of course, have fine clubs, while St. Louis and Chicago have fighting teams that will not take defeats without giving their opponents a great battle. The Phillies have the greatest pitcher in America in Grover Alexander, and that counts. Cincinnati will fool a lot of folks. Herzog has those boys out hustling and will put up quite a fight to get in the first division."

New York fans figured that with four teams in this city including Brooklyn with its Federal league club there ought to be a fair chance of winning one of the three big pennants.

MAYOR STARTS GAME.

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, April 14.—Weather conditions were favorable early today for the opening of the National league championship season by the Pittsburgh and Cincinnati club.

Before the game, Manager Clark announced that either Adams or McQuillan would pitch and Gibson or Schang catch for Pittsburgh, while Manager Herzog said he would select Ames or Benton to pitch for Cincinnati with Doerr to do the catching.

Mayor Spiegel was carried to throw out the first ball.

LAJOIE AT PHILADELPHIA.

(ASSOCIATED PRESS TELEGRAM)
Philadelphia, April 14.—Fair weather greeted the fans who traveled to Shibe park today to see the opening game of the season between Philadelphia American league champions and Boston.

This was Lajoie day, in honor of Napoleon Lajoie, the veteran second baseman, who came back to Philadelphia, after an absence of 13 years.

Identical to the opening day exercises, the 1911 American league pennant was flung to the breeze.

The battery predictions for today's game were Leonard and Carrigan for Boston; Bush and Schang for Philadelphia.

PRESIDENT TO PITCH.

(ASSOCIATED PRESS TELEGRAM)
Washington, April 14.—With President Wilson ready to lay aside the cares of his office and toss out the first ball thereby starting hostilities between the Washington and New York American league baseball teams, officials and unofficial fandom was all agog over the inauguration of the baseball season here today.

The baseball spirit was in evidence everywhere and indications were for a record breaking crowd. Government officials and employees prepared to take a half holiday in order to witness the opening game. Interest in the event was greater than previous seasons inasmuch as the belief was general that the local team had a better chance of finishing higher up in the league standing than heretofore. Fair weather was forecast.

DETROIT HANDICAPPED.

(ASSOCIATED PRESS TELEGRAM)
Detroit, April 14.—Because of the absence of first basemen Burns who is slowly recovering from the effects of an operation for appendicitis and third basemen Captain Moriarty, who is laid up with an injured foot, Detroit was forced to start the American league season with two substitutes in the infield. These substitutes, Kavanach, and Vitt respectively, are old members of the team, however.

With Larry Lajoie no longer a member of the team, Cleveland also presented a new infield.

ADVANCE SALE LARGE.

(ASSOCIATED PRESS TELEGRAM)
St. Louis, April 14.—St. Louis enthusiasts are ready for the 14th annual opening of the local American league baseball season this afternoon and the advance sale of tickets indicates a great crowd.

Ban B. Johnson, president of the American league and Charles C. Comiskey, president of the Chicago club will attend the initial contest.

PARADE AT CHICAGO.

CHAMPS ARE READY.

(ASSOCIATED PRESS TELEGRAM)
Boston, April 14.—The opening of the National league baseball season found the world's Boston champion team eager to start its first game against Philadelphia at Fenway park today. Mayor Curley had accepted an invitation to throw out the first ball and a band concert was arranged as part of the opening day ceremonies.

It was expected that Rudolph would start in the box for Boston and Alexander for Philadelphia.

CAPITAL CITY
LEAGUE WILL
OPEN SUNDAY

The Capital City League, of which the C. A. C. club of this city is a unit, will open the season next Sunday at 2:30 p. m., the C. A. C. club playing the opening date at home with the Green Joyce club of Columbus as their opponents. The management of the C. A. C. club promises a good game for the opener. The schedule for the season is as follows:

DePalma's Brother Enters Racing Game

JOHN DE PALMA

Desires of emulating his famous brother Ralph, John DePalma has entered the next Indianapolis 500-mile race at the wheel of the Delaga that galloped home with first money last year. DePalma is having the car fitted with smaller cylinders at present, to conform with the speedway's latest size limit regulations. He is considered a crack driver, having learned the game as a mechanic for his brother, with whom he rode the greater part of last season.

Demosthenes was about to go down to the seashore and perform his customary stunt of talking with his mouth full of pebbles to improve his enunciation. On the way an idea assailed him.

"What's the use of fussing with a lot of biggy pebbles," he growled, "when I can get the same effect out of the Galician battlefields?" And he said Salsizymzehrig six times in rapid succession.—Cleveland Plain Dealer.

OF SWINDLE, WOMEN SCHOOL TEACHERS WHO SHOULD HAVE KNOWN BETTER.

Fell Easy Prey to Smooth Talk and Invested in a Chimerical Tale Mine.

(ASSOCIATED PRESS TELEGRAM)
Youngstown, Ohio, April 14.—Count Detective John Kane was on his way to New York today to bring back J. Condit Smith, arrested there on a secret indictment here, charging obtaining money under false pretenses on complaint of 14 local investors, mostly women, said to have been losers in a tale mine scheme.

The Youngstown investors are reported to have put \$6000 into the venture. Warren, Pa., women are also said to have invested \$30,000. A majority of those concerned are school teachers.

BURGLARS DO MUCH DAMAGE TO THE SAFE

Burglars who ransacked the offices of C. S. Osburn & Co., feed and grain dealers in Indiana street, caused more loss by the damage done to the building and office fixtures than the money amounted to which they stole from cash boxes in the safe and cash register. Not more than \$5 in change was secured by the men but they damaged the building by breaking the window, sash and all, crushed the locked compartments in the safe, the outer doors of which were not locked, and scattered books and papers all over the floor. The matter was reported to the police but there was no clue to the identity of the thieves.

DARKEN GRAY HAIR, LOOK YOUNG

Apply Q-Ban—Not a Dye. Harmless—Wonderful—Changes Gray Hair Beautiful Dark Shade.

Don't look old—look young—so if your hair is wispy, thin, falling, gray, streaked with gray, faded, dry, prematurely gray simply shampoo hair and scalp a few times with Q-Ban Hair Color Restorer. Your hair will then be beautifully darkened, lustrous, soft, fresh, wavy, with that dark lustrous gloss which makes the hair so fascinating and attractive. Also stops itching scalp dandruff and falling hair and promotes its growth. Q-Ban is not a dye, but acts on the roots so the gray hair is so evenly and beautifully darkened that no one can tell it has been used. Q-Ban is not sticky or messy; harmless. Try it. Big 7-oz. bottle only 50c. At R. W. Smith's Drug Store, Newark, O. Out of town, it is supplied by parcel post.

Denison Glee Club In Concert Tonight

The seats are selling rapidly for the Denison Glee Club concert which will be given this evening at 8 o'clock in the High School Auditorium.

The Glee Club has given concerts in a number of the larger cities in the state and has met with great success. The program arranged for tonight is an attractive one, and the worth of the soloists and the excellent chorus work will make it a concert of merit.

MIDGET ACTRESS DEAD.

(ASSOCIATED PRESS TELEGRAM)
Woonsocket, R. I., April 14.—The death of Miss Sadie Belton, at one time a well-known midget actress, was announced today. She was 73 years of age.

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to the remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders.

Sargol aims through its re-generative re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and press them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Evans Drug Store and other leading druggists of Newark and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain 10 pounds or more.

TOMLINSON IS PRESIDENT OF O. E. SOCIETY

Zanesville, April 14.—At the annual convention of the Ohio Electric Benevolent Association yesterday it was decided to hold the next convention in Springfield in October. Chapters from Newark, Springfield, Columbus, Dayton, Hamilton and Lima were represented at the session.

The annual election resulted as follows: Grand secretary-treasurer, Arthur C. Stankey, Lima; grand president, F. E. Tomlinson, Newark; grand first vice president, C. C. Moul, Springfield; grand second vice president, Henry Baker, Greenville; grand third vice president, George T. Shirley, Dayton, sergeant-at-arms, E. G. Painter, Zanesville, grand chaplain William Wheeler, Columbus.

TRUANT OFFICER MAKES A REPORT ON CHARITY WORK

Following is the report of Truant Officer Frank G. Handel on the expenditure of money received from the Municipal Christmas Tree fund for the poor.

Total amount received from committee \$64.07

Expenditures:

28 Pairs Shoes, boys and girls \$42.00

Repairing Shoes 3.85

12 Suits Underwear and 34 Pair Hose 8.13

Children's Clothing 6.00

10 Pairs Pants 4.50

\$64.48

Mr. Handel says: "I wish to thank the committee who made it possible for me to provide the above clothing to the worthy poor children of Newark. I am sure if those who contributed to the above funds could have been with me and have witnessed the pleasure which the above gifts created in the hearts of these children they would have felt well paid for their contributions. I hope this custom may be continued through another year."

EXPLOSION IN AN ILLICIT DISTILLERY KILLED 15 PERSONS.

OF INDUSTRIAL AND ART WORK DONE IN PUBLIC SCHOOLS IS INTERESTING

It Can be Seen in a Local Book Store Window and is a Revelation of Talent.

A most interesting little exhibit of some of the industrial work done in our schools is now to be seen in one of the windows of the Edmonston bookstore.

Every piece on display is the work of some pupil in High School or the grades, made under the direction of the Art department.

The pupils of the North Fourth street school designed and made the tiles. The Art department having no funds available, the pupils drew from their own grade fund to pay for the clay and the firing of the tiles. They will carry the work a step farther this week modeling fern dishes, decorating them with their own designs.

Both Seventh and Eighth grades are represented in the candle shades. The designs were made from leaves which the pupils brought in, conventionalized and adapted to the spaces to be filled.

The towels are Seventh grade products. Both boys and girls made cross-stitch designs before Christmas, the girls utilizing theirs on towels in the sewing class.

The fingers of a small Fifth grade laddie fashioned the whisk broom holder.

The writing pads and baskets were made by pupils in the High School art classes all of whose work is done after school hours.

Every Eighth grade girl must have a note book in her cooking class.

This year the Seventh grade pupils have made the covers for these books.

Boys and girls have done the same work, the former making kodak books of theirs. A few of these covers appear in the exhibit. Later they will be lettered and decorated.

Some of the Eighth grade classes have purchased material and are making baskets like the one on display, the work of an Eighth grade girl. The parents who visit our schools' Patrons' week will enjoy seeing the little tots in lower grades busily weaving on looms made for them by pupils in upper grades. Two little hammers show some of this weaving.

Everyone interested in our schools should see this exhibit. They will find it worth while.

BETTER EYESIGHT FOR LOCAL WOMAN

This Wonderful Result Came Because Nerv-Worth Helped Her Nerves.

"I have been taking doctor's medicine and different patent medicines for some time," said Mrs. A. Brightman, of 62 Mayflower flats, some time ago, "but none have done me the good that Nerv-Worth has. I was troubled with nervousness, dizziness, indigestion and my eyes were affected. I have tried Nerv-Worth with very beneficial results. My eyes have fully recovered. I am much better than I was. I get a much better night's rest and have gained strength."

These are the words of Mrs. Brightman to T. J. Evans, the War-den block druggist, who sells Nerv-Worth. Buy a bottle of it there. He will guarantee it. Price \$1.00—(Adv.)

BANKER, AGED 99, DIED AT NORWALK, OLDEST IN AMERICA

(ASSOCIATED PRESS TELEGRAM)

Norwalk, Ohio, April 14.—John Gardiner, aged 99, the oldest active banker in the United States, died today. He was president of the Norwalk National Bank, in which he became clerk 81 years ago, and until six months ago went daily to his business office.

Gardiner helped Salmon P. Chase, then secretary of the treasury, organize the First National Bank in the country in 1862. He once was president of the Toledo Norwalk and Cleveland railroad, now part of the New York Central system.

AN OLD RECIPE TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and glossy at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Agents, Hall's Drug Store.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.

Mr. Wilson will soon be going out on a speaking tour, but he need not think that a mere president can attract as much attention as Jess Willard.

Some merchants hate to advertise, for if they did they might get rid of their old stock and have to go to the expense and bother of putting in something new.

Why is it that so many parents are indifferent to the children's garden movement, when after the children plant the garden all Dad has to do is to keep the weeds out?

The boys dearly love to sleep out of doors when warm weather comes, which may be due not so much to love for out door life as to the fact that Mother can not so easily supervise their abductions.

The warring powers have to content themselves mostly with torpedoing merchant ships, and only occasionally are they able to get a passenger ship with women and babies.

People who pay no taxes don't bother their heads much about injustices in taxation systems, as they feel people should have foreseen these troubles when they started in to get money.

The country would be able to get along even if the wheat crop should fall 100,000,000 bushels short. But it would go hard if the yearly supply of 20,000,000 baseballs should not be delivered on time.

A famous jewel, presented by a London broker in 1785 to the president of Dartmouth college, and designed to be worn by him on occasions of state, has been found in the vaults of Parkhurst Hall, where it has lain forgotten for many years. President Nichols may resume the old costume of wearing it on state occasions.

A recital for the benefit of the Library will be given tomorrow night at the Second Presbyterian church by Mr. Bert E. Williams assisted by Prof. Hoppe reader and Mrs. J. C. Bonshire soloist. The excellence of the program and the purpose of the entertainment should fill the church. The Newark public library deserves greater support than it is receiving.

True Peace Terms.

(Ohio State Journal.)
Maybe the great war is the predestined Armageddon, brought on by the co-existing forces of good and evil, and must be fought to a finish, as Armageddon is supposed to be. The war is more than a temporary incident; more than a quarrel or a misunderstanding; it is a cosmic affair, operating in the moral world; it is a cosmic affair, operating in the moral world; a tremendous event that projects tremendous results.

It might be a sad consequence if all this sacrifice and suffering should be lost in simply fixing up the differences and letting the conditions remain. The only way to meet this is an international tribunal that will abolish armies, fleets, and armaments of all kind, reserving only enough to enforce the degrees of the aforesaid tribunal. That is really the judgment of the world upon the settlement of this terrible conflict, and if the diplomats, with their soft demagogic and ancient phraseology get together and patch up the trouble, leaving the cosmic causes untouched, the whole world will be disappointed.

We note the suggestion that the Pope and President Wilson get their heads together and propose a solution. It is hoped they will, for they will be sure to change the ancient internationalism into a brotherhood of nations, where good will and self-respect will be the dominating forces.

As she gave him the bill she said, "Papa designed it. It's my hat and a few other things that I love." He gave it the once over then he con-sidered it. In language quite fierce to a place furbelow.

It is the intense partisan who believes that other people should be neutral.

"Buzz" Hopgood has long had the reputation of being the biggest fool in our town. "Buzz" once tried to drown himself by jumping into the river. But he took the precaution to buckle on a life preserver before making the jump.

When a man is through he is through. But a woman still has a pile of dishes to wash.

A Redbird Story That's True

The little, broken body lay limply in my hand, the pretty, soft gray feathers with their brilliant touches of scarlet, roughened and torn. The cat that had been guilty of this cruel thing had been banished, a quite inadequate means of expressing our feelings about it.

Jeanne leaned against my shoulder as we watched the little life go out, and sobbingly told me about it. "She was on the ground gathering twigs for her nest, when he sprang out and grabbed her. Oh, dear!"

"Don't cry so hard, dear," I begged, though I found it hard to restrain my own grief. "We'll praise Tom for catching a mouse and I suppose it's too much to expect a mere cat to know the difference."

And then we got a box and lined it with soft white, and as we dug the little grave under the lilac bush, the widowed bird in his dress of glowing scarlet was whistling joyously from the top of a neighboring tree, unconscious of the tragedy that had befallen him.

This pathetically added to Jeanne's grief. "Oh, what will he do," she moaned, "when he comes back and can't find her! Poor little bird!" and her eyes overflowed again.

It was a tragic situation and I was pondering it the next morning as I dug among my flowers. The sun was shining, birds were singing,

Willis Building a Machine.

Governor Frank B. Willis may consider himself exceptionally lucky if he escapes political damage in the threatened flare-up in this state over alleged violations of the civil service law passed under constitutional amendment. It is charged by a civil service official that Governor Willis has not only violated the spirit but he has broken the letter of the law in the matter of urging partisan appointments in the classified service, and withholding his approval from appointments because the appointees were Democrats.—Zanesville Signal.

State Expenses.

Pennsylvania wants \$10,000,000 more revenue. New York is after \$12,000,000 of an increase from direct taxation. Many other States are inquiring for methods to get more money from taxation. The State that proposed to balance expenditure and revenues by cutting down on expenses would be retired under guardianship as hopelessly out of its mind.—Pittsburg Dispatch.

Not Presidential Size.

With the exception of Dr. Brumbaugh most of the Republican Governors elected last fall are proving to be rather small potatoes. None of them is showing Presidential size. In New York Whitman has greatly disappointed his party, and White House possibilities have gone a-glimmering. In Ohio, where the new Governor, Willis, has hailed as a coming man, he has shown himself to be a rank spoilsman, seeking to decapitate all Democrats in order to provide jobs for Republicans. Naturally enough, the Democrats object to summary execution and are opposing such arbitrary conduct. So it has been in other States. The G. O. P.'s hunger for the fresh pots is rapidly proving its undoing.—Philadelphia Record.

100,000,000 vs. 2,000.

Keep right on plying those 2,000 Americans in Mexico City. There has been war and revolution there for four years. Yet the 2,000 have steadily refused to get out. What's the reason? There must be money in staying. And is the money the 2,000 may get worth having the rest of our 100,000,000 population do anything more strenuous than watchfully wait?—Hartford Times.

SYMPTOMS.

A man can read an almanac, and learn that he is sick; then he will groan about his back, in which he's found a crick. Before he read that book of dole, he never knew a smart; he was a hale and healthy soul, with sunshine in his heart. But now he hangs about his coop, his head bent to his knees; he has the symptoms of the croup, of hoot and mouth disease. A man as sound as Adam's ox, when "symptoms" get his goat, will purchase nostrums by the box, and send them down his throat. Of grievous aches and pains he'll whine, as sunny days go by, and go into a slow decline, and of his symptoms die. The "symptoms" fiend will cough three times, and to the drugstore skip, and blow for dope his hard-earned simes, and say, "I have the grip!" And when his cough has muffled his freight, "I still am sick," says he: "my present symptoms indicate I have the housemaid's knee!" Our cares are much like pains and aches which keep that fellow sore: the most of them are flimsy fakes—just symptoms, nothing more. We wear away our little lives, and weep and walk the floor, and read our beads and heat our wives for shadows, nothing more.

Mrs. William Shamp entertained the Tuesday Afternoon Euchre club yesterday at her home in East Main street. Four tables filled with players enjoyed the game, which was followed with refreshments. Mrs. W. L. Jackson and Mrs. E. S. Woodward received the prizes in the card game. Mrs. John Cosgrove will entertain the club on April 27 at her home in Buena Vista street.

A few friends of Mr. Chalmers Montross surprised him at his home in West Main street Monday evening, the occasion being his "18th" birthday anniversary. The evening was pleasantly spent with games and music and dainty refreshments were served the following: Misses Annabel Conrad, Hilda Barrett, Veda Barrett, Emma Boggs Horn, Mattie DeNoon and Messrs. Ed. Emblen, Virgil Montross, Audrey Wall, Clark Haynes, Jack Emblen and the host.

The Coterie club will meet with Mrs. Charles Long, 80 Granville street, Friday, April 16.

At the home of Mrs. T. C. Coulter in Buckingham street on Tuesday the members of the Unity Reading Circle and a few friends spent a most pleasant afternoon socially and in the enjoyment of an excellent program. Quotations from Lowell were in charge of Mrs. McGough. A splendid paper and talk descriptive of her recent trip to Panama, Cuba and other Southern and Eastern points was given very entertainingly by Mrs. Slabough. Mrs. Bazler's review of the book, "Mother," by Kathleen Norris, was much enjoyed by all. Mrs. Montross acted as critic.

Dainty refreshments were served by the hostess to the club ladies and the following guests: Mrs. S. D. Brooks, Mrs. C. F. Hagner, Mrs. C. G. Burch, Miss Mella Burch and Miss Blanche Murphy.

The Recreation club entertained with a delightful dancing party at the Moser hall in West Newark on Tuesday evening. The Nutter-Hawkins orchestra furnished the dance music and the following were the guests:

Mr. and Mrs. Clark Wright, Mr. and Mrs. Fred Palmer, Mr. and Mrs. Raymond Wilson, Misses Nan Dwyer, Mary Balzer, Louise Bramlage, Katherine Wright, Annis Higbee, Zella Wright, Helen Houlden, Edna Hamilton, Katherine Staven, Stella Adams, Doris Handel, Helen Starch, Edna McCale, Lucille Schaller, Lucille Weller, Katherine Schieber, Lola Moore, Stella Cannon, Anna Cannon, Helen Conley, Clara Reichert, Louise Reichert, Mary Niemuth, Elsie Rowe, Nellie McCarthy, Pearl Haycock, Esther Johnson, Daisy Steinman, Agnes Burton, Alice Callahan, Mary Prior, Ella Hagg, Buelah Moore, Nellie Freiner, Clara Copeland, Katherine Kear, Ruth Carrington, Amelia Verheven, Lois Marple, Marie Bourner and Genevieve Kennedy. FOR TIRED, SWOLLEN SORE FEET

When your feet are tired and sore and you "just can't go another step" apply Hoff's German Liniment, the stainless, greaseless, refreshing-odor preparation. Hoff's German Liniment is made from white emulsion of camphor and other pure, harmless, effective ingredients. The camphor soothes tired muscles and joints and the other penetrating and healing ingredients make the sore tired feet and leg muscles flexible and elastic. Foot powders and alum preparations simply shrink the feet and relieve temporarily. Hoff's German Liniment heals the trouble and makes new feet. Relieves aching corns and bunions.

For nearly two decades Hoff's German Liniment has been unequalled for Rheumatism, Lambe Back, Neuralgia, Cold on the Lungs, Cold in the Head, Bruises, Sprains, Aching Joints and Muscles, Chills, Frost Bites, Chapped and Cracked Hands, Toothache and Headache. It can be taken internally for colds, coughs, croup, etc. Fine for children. Keeps pores closed—something camouflaged oil from will not do—keeps colds out. Sold by all druggists—a quarter pint for a quarter; large family size, 50c. Results absolutely guaranteed or drugist will return your money. Beware of substitutes, which mean disappointment.

Woman College President Receives \$10,000,000.

Miss Mary Carey Thomas, president of Bryn Mawr College, will receive the bulk of the \$10,000,000 estate left by her friend Miss Mary Elizabeth Garrett, who was the daughter of John W. Garrett, late president of the Baltimore and Ohio Railroad, according to the will probated in Baltimore. Miss Thomas is the residuary legatee and also executrix under the will. Eryn Mawr College, of which Miss Garrett is a graduate, receives no bequest, but the terms of the will indicate that Miss Thomas and Miss Garrett, who have been close friends for years, had an understanding according to which the college will receive substantial benefits.

Raymond Wade, Daniel Manning, Jr., Forrest Fleming, Raymond Melville, Neil Floyd, Wayne Day, Raymond Day, Norbett Jenkins, Rudolph Schenk, James Moran, Charles Nemeth, Amos Burton, Roy Toothman, William Kling, Howard Handel, Frank Cole, Clarence Miller, Harry Kuppinger, Owen Chrisman, Walter Baker, Lawrence Prior, Raymond Coffman, David Denelsbeck, Joseph Dolan, Searl Watts, John Evans, Richard Hall, Frank Rinehart, John Kennedy and George McNamara.

Mrs. J. B. Jones, entertained the members of her bible class the I V Class of the Y. W. C. A. on Tuesday evening at her home in North Fourth street. Mrs. Jones gave a dinner party, the table was arranged with daffodils, and following the menu, a report was given and the work for the summer discussed. It was decided to have the meetings but once a month during the heated term. The class has just finished the study of the Women of Ancient Israel. There are thirty-one members in the class.

Obituary

Mary Jane Wolf.

Mary Jane Wolf, wife of Samuel Wolf, died Wednesday morning at 12:30 a. m. at her home, 92 Cambria street, aged 78 years, 3 months and 28 days. She leaves a husband, four children, Mrs. Martin Ashcraft, of near Bladensburg Knox county, O., Mrs. Lemard Larason, of Newark, Mrs. Phil Greiner, of Columbus, O., and Sylvia Wolf of the home. Also eight grandchildren and eleven great grandchildren.

She was a member of the West Side Church of Christ. Private funeral will be held at the home Thursday at 2 o'clock. Rev. W. D. Ward of the Central Church of Christ will officiate. Burial at Cedar Hill.

T. P. Jones.

T. P. Jones, retired farmer of Union Station, died at 11 o'clock Tuesday night at Grant hospital, Columbus, of apoplexy. He was taken to the Columbus hospital in the hope of saving his life but without success.

Mr. Jones was a native of this county having spent most of his life in Union township, where he served for years as a justice of the peace. He was 80 years old.

He is survived by his widow and two sons, Guy Jones of Redland, Calif., and Edgar Jones, who lives at home. A daughter, Mrs. Otto Thorpe lives at Licking Church.

Funeral services will be held Thursday afternoon at 1 o'clock at Licking Church, under the auspices of Hebron lodge No. 116, F. & A. M. Rev. Mr. Benjamin, pastor of Licking church, will officiate. Burial in the cemetery adjoining the church.

Mrs. Albertina Eye.

Mrs. Albertina Eye, 70 years old, wife of Francis A. Eye, of Franklin avenue, Franklin addition, died at 10:50 o'clock Tuesday night at the home of her daughter, Mrs. John Rosebrough, after an illness of a week. Her death was due to pneumonia.

Mrs. Eye was a native of Switzerland, having been born at Liestal. She came to this country in 1854, coming directly to Licking county, where she has since resided.

Besides her husband, she is survived by seven children. They are Warren Eye of Hamilton, Ontario, Canada; Charles Eye of Marion, O.; Harry Eye of Cincinnati; and Frank Eye of Newark; Mrs. John Rosebrough, Newark; Mrs. John Frickey, of Columbus and Mrs. J. B. Dusthimer, of Warren, O. She also leaves two sisters and two brothers, Mrs. Frank Frye, Mrs. Amelia Steve and Messrs. Carl and Arnold Norpell, all of this city.

Funeral services, to which the friends are invited, will be held at the Rosebrough home in Franklin addition, Friday at 1:30 o'clock. Rev. Mr. Diehl, pastor of Plymouth Congregational church, of which Mrs. Eye was a member, will officiate. Burial at Cedar Hill cemetery will be private.

Card of Thanks.

"Should I always shake hands with my hostess when leaving a reception or entertainment?" asked Ned.

"When leaving an entertainment a man shakes hands with the hostess, and he may do so with any friends who are near, but he should not, of course, go about shaking hands generally," replied his uncle.

If for any personal peculiarity little or cannot eat eggs a little chicken the white meat of fish or one small chop may be given three times during the week. If, in deciding on any food the question "Why give it?" is asked, instead of "Why not give it?" the problem might be simplified, and before deciding the problem it may be helpful to refer to the following lists:

Foods that build tissue and exclude meats: Milk, eggs, chicken, fish, beans, and peas (strained from skins), oatmeal, graham and rye flours, corn meal, barley, wheat, macaroni, chocolate and good dried fruits.

Cereals also contain much starch, which with a limited amount of sugar supplies heat and energy, and from cereals and green vegetables and fresh fruits are also derived the necessary materials for the building of good bones and teeth. Thus a varied diet is necessary to secure the required food principles and after their selection they must be presented as well cooked, carefully seasoned and tastefully served dishes.

Many mothers do not realize that they not only are responsible for the health and general welfare of their children, but for their good looks as well, and nothing detracts more from the expression of the face than bad teeth. It is their duty to see that good ones are cultivated.

Decayed or worn teeth than all other defects of the mouth. Therefore, as a means of prevention in caring for the teeth, as well as in other matters, mothers have a poor teeth often the cause to inherit, but dental bacteriologists say that it is not so much the quality of the teeth as the manner in which causes them to decay.

Then, the teeth need exercise to make them strong just as muscles do. Consequently, a constant use of liquid and soft foods will give the teeth so little to do that from the inexor-

New Treatment for Bronchitis, Asthma, Catarrh and Head Colds

Vick's "Vap-O-Rub" Salve Relieves by Inhalation and Absorption. No Dosing.

No need to take internal medicines or habit forming drugs for these troubles. When Vick's "Vap-O-Rub" Salve is applied to the heat of the body, soothing, medicated vapors are released that are inhaled all night long through the air passages to the lungs. In addition, Vick's is absorbed through the skin, relieving the tightness and soreness.

Vick's can be applied over the throat and chest and covered with a warm flannel cloth—or a little put up the nostrils—or melt a little in a spoon and inhale the vapors arising. Also for Asthma and Hay Fever, rub Vick's well over the spinal column to relax the nervous tension. 25c, 50c, or \$1.00.

BY GWEN SEARS.

There are baths, and baths of various kinds, for beauty's aid. Milk baths, cold baths, hot baths, mud baths, perfume baths, and salt baths. But one can safely feel that any kind of baths are good for one if taken in moderation.

The oil bath is excellent for one who is emaciated or poorly nourished, but a good massage should accompany it or the pores will be obstructed rather than nourished. The alcohol bath should be judiciously taken, otherwise great destruction of tissues will result.

Sea bathing has a healthful action on the skin and the shock of the cold plunge is health-giving, providing one is in a condition to endure it. There is a great temptation, however, to remain long in the water, and most people regulate the time by their comfort, leaving when they feel cold. This is a great mistake. A bath of twenty minutes' duration is enough for an ordinary person.

Too little importance is attached to air baths. Our clothes are often of such texture and so arranged that but little air reaches the skin—thus depriving it of needed nourishment. A good air or sun bath is almost equal to a tub bath. In taking a sun bath one should be undressed if practical, otherwise the clothing should be extremely light, loose and porous.

If it is not convenient for one to take a Turkish bath at the public places one may take a Russian bath at home. For this bath there are inexpensive cabinets, folding and stationary, made of cloth, tin or wood. A simple and easy method of taking a Russian bath on a small scale at home is to seat oneself unclothed on a cane-bottomed chair under which is a pan containing about one quart of water, resting on a lighted spirit lamp.

One should be enveloped in blankets from neck downward to the floor. The water in the pan can be replenished if necessary. Just how long one should continue this bath would be difficult to say. Usually the time is ten to twenty minutes after the perspiration has started.

If one drinks two or more glasses of water during the bath it aids in producing perspiration. After the bath one should lie down with plenty of blankets. This will allow the process of perspiration to continue, but after ten minutes or so gradually remove blanket after blanket, which will allow one to resume a normal temperature gradually, and finish with a plunge in a tub of cool water followed by a brisk rubbing.

The tailor made costume is again coming to its own, the swagger well fitting coat and skirt, severe neckwear and hat. But it is not every

woman who can afford to risk the severity, because a multitude of defects can be covered by frills and ruffles.

A tailor-made gown, since it is the last word of smooth and beautiful excellence, calls for the last word in a smooth and beautiful complexion. The face with few or many black heads cannot or should not consort with it until it has been cleansed of them.

The plain, smooth lines of the costume do not fail to show forth all the more glowingly the soft contour of cheek and chin, the luster of the eyes, the curves and freshness of the lips.

Small use indeed to take pains in having the right color and texture, the right coat and perfect fit, the spick and span and lacy neck fitting forth from this blouse or looms upon the eye a sorrow skin, or one rough, creased or pale, with dark shadows around the eyes or lips, a general effect of torpidity, staleness or positive ill health.

A course of treatment is well worth its cost for many reasons, and certainly it is a wise expenditure of money if the complexion is so shabby that the new tailored suit shall but make it look more dingy. Not all skins need much done, some very little, while others, like well-worn chairs, need complete refurbishing.

Any reliable expert can advise as well as work, and sometimes all that is needed is for one to be started on the right road with a few treatments, sound advice and the right store of aids to be used locally.

Health, as we all know, is the foundation of the right kind of complexion, and health means good digestion, quiet nerves, sufficient sleep, plentiful baths, cleansing cream used on the face every day, plenty of fresh air by night and day, bright and cheerful thoughts so that the minute wrinkles of worry and anger shall not be printed upon the countenance.

ORGAN RECITAL FOR BENEFIT OF PUBLIC LIBRARY

An organ recital for the benefit of the Newark public library will be held at 8 o'clock tomorrow night in the Second Presbyterian church. The organist will be Mr. Bert E. Williams of the Broad Street Presbyterian church of Columbus, who will be assisted by Prof. Hoppe, reader, and Mrs. J. C. Bonshire, soloist.

The recital is to be given under the auspices of the Investigators club.

The arrangements of the musical program leave nothing to be desired as to range of subjects treated and works will be rendered of composers which will convey the very best of musical conception and interpretation as will be seen by the following program:

Fugue in D Major J. S. Bach
Attention is directed in this fugue to the pedaling. There are comparatively few compositions for organ demanding as brilliant pedal technique as is required in the rendition of this number.
Madam Butterfly Puccini
Act II—Finale.

This particular selection is very extraordinary music for the organ.
Reve Angellique, Opus 10, No. 22 Rubinstein

An effective transcription by E. H. Lemaro of the piano work "Kammerlei Ostrow."

Reading—"The Hour Glass" William Butler Yeats
Prof. Hoppe.

Overture to William Tell Rossini-Buck

There are several arrangements for organ, but the one by Dudley Buck is generally considered the best.

Romance in C Masson

A delightfully refreshing composition; short but very expressive.

Song of the Mother Bert E. Williams

A 1912 composition played from manuscript. A short subject of two notes forms the theme of the composition.

The Russian Patrol, by request Rubinstein

Originally composed for military band, this number represents the approaching, passing by, and marching away of a Russian patrol.

Vocal solo Selected
Mrs. J. C. Bonshire.

First Peer Gynt Suite, Opus 46 Grieg

(1)—Morning Mood; (2)—The Death of Asa; (3)—Anitra's Dance; (4)—In the Hall of the Mountain King.

(The Imps are chasing Peer Gynt.)

These four tone pictures, written to enhance the Ibsen play of the same general title, are familiar to all as orchestra selections. As organ numbers they are distinctly novel and highly effective.

FINANCES

OF THE NEWARK Y. M. C. A. FOR THE YEAR ENDING MARCH 15, RECAPITULATED.

Statement Itemizing Receipts and Expenditures Shows Care and Economy in Latter.

Financial statement of the Y. M. C. A. for year April 1, 1914, Mar. 15.

The greatest possible care has been taken to make a careful statement of the receipts and expenditures of the association for the past year. Before the year began a committee of the following men, C. L. Wyeth, C. H. Davis, J. N. Pugh, Harry Scott, A. R. Evans and E. S. Randolph, met and laid out very carefully the budget for the year.

The total of the budget as planned was \$7800. The most careful economy was practiced and a strong effort made to make the receipts reach the amount placed in the budget.

The figures below which itemize the receipts and expenditures, show how well the ideals were met in a hard financial year.

Receipts—Rentals, \$2,115.70; membership, \$1,214.75; educational, \$79.80; towels, \$147.13; game fees, \$85.39; miscellaneous, \$120.23; subscriptions, \$3,263.70; total, \$7,027.70.

Expenditures—Salaries, \$3,884.10; improvements and repairs, \$344.93; heat and light, \$490.57; office and house supplies, \$102.35; religious work, \$51.14; water, \$448.49; boys' work, \$101.55; reading room, \$26.06; educational, \$58.76; social, \$52.07; gymnasium, \$99.74; bath and laundry, \$195.15; interest and insurance, \$973.38; state work, \$50.00; conventions, \$29.85; finance work, \$66.34; miscellaneous, \$11.30; total, \$6,995.78.

Debits—Amount on hand April 1, 1914, \$80.40; bank balance April 1, 1914, \$35.35; receipts for year April 1, 1914 to March 31, 1915, \$7,027.70; total, \$7,123.45.

Credits—Amount expended as per vouchers, \$6,995.78; on hand April 1, 1915, \$46.44; bank balance April 1, 1915, \$81.23; total, \$7,123.45.

A comparison of bills outstanding April 1, 1915, with those April 1, 1914, shows that while there was a loss in receipts caused by stringency in the winter months there was an actual deficit in running expenses of \$150. There are, however, bills outstanding mainly interest of mortgage debt, that should be met at once. The friends of the association are responding readily to meet the needs of the coming year, which the budget committee has placed at \$4000. An official examination of the books was made with statement following:

Newark, Ohio, April 10, 1915.
To the Board of Trustees,
Y. M. C. A., Newark, Ohio.

Gentlemen:
As requested I have audited the affairs of the association for the year ending March 31, 1915, and find that the annual report submitted is a correct statement of the condition of the association on March 31, 1915. All vouchers for expenditures, properly receipted, are on file.

Yours very truly,
W. T. SUTER.

MAINTENANCE OF EARTH ROADS IS MOST IMPORTANT

From fifty to sixty thousand miles of the public highways in this state must necessarily be improved, maintained and repaired as ordinary earth roads, and will be so managed for the next century or so. It is the policy to improve ten or twelve thousand miles of public roads known as main market and inter-county highways, and if the counties themselves undertake the improvement of an additional ten or twelve thousand miles of county roads, there still will be between fifty and sixty thousand miles of ordinary roads that must be cared for by the townships. It is therefore quite apparent that careful consideration should be given to the study of the specific subject of earth roads.

The proper maintenance of earth roads is unquestionably of very great importance. It has been demonstrated by the proper use of the road drag that the minimum cost of maintenance may be attained on such roads that have been properly drained, shaped and crowned. By the systematic use of road drags earth roads have been maintained and kept in ideal condition at an average cost of less than \$10 per mile per year. Accordingly, one hundred miles of such public thoroughfares, barring extraordinary conditions, can be kept in ideal condition for less than \$1,000 per year.

The act of draining such roads preserves the crowns, fills depressions, and prevents the road bed from becoming water soaked. Water is the natural enemy of any road, and eternal vigilance by systematic dragging is necessary to the end that an earth road may be put in a condition immediately following each rain so that it will carry the water quickly from its surface during the succeeding rain. Township authorities should realize the necessity of perfecting an organization for carrying on such work, and this organization should be perfected in the winter or early in the spring so that work may be done as soon as the frost is out of the ground. All machinery should be thoroughly examined; tools and implements properly repaired and made ready for use; machinery, tools and implements purchased when necessary so that township officials will be ready to start the work as soon as weather conditions will permit.

The introduction of road machines in the early 80's marked a considerable change in the methods, and the advantages to be gained by the use of these machines were quickly recognized and for a time general improvement was very marked, but the misuse of road machines very quickly followed in the succeeding years, as there has been a tendency to use road machines in such manner, at such times and in such places as to produce results which have been extremely unsatisfactory. By the abuse of road machines a very large percentage of money and labor has been wasted and the roads were left in worse condition than they would have been had they not been touched at all. There is no implement which, if properly used, results in a greater saving of labor than the road machine, and likewise there is no implement by means of which money may be wasted any faster and bad conditions more quickly produced than by its misuse.

Road authorities should so plan and execute the work that the job for the road machine is ended for quite a long period, and especially so if the road is dragged as provided by law. A road drag should not be permitted to be used on a dry surface. It is a waste of money and actual damages result, because of a dusty condition produced and distribution of hardened particles of earth which are calculated to resist wear. The earth road must be handled while its surface is spongy if a solid crust is desired; a gravel road must be wet at the time of dragging, but a clay road cannot be dragged successfully when it is wet, but it must be moist. If the earth roads could be made so that their surface would be practically impervious to water and the water beneath the surface removed, they would be ideal. There is no road so good as an earth road, when that earth road is good.

G. F. RUDISILL,
State Director Ohio Good Roads Federation.

BILLY SUNDAY PAYS TRIBUTE TO THE JEWS

Rev. William T. Sunday, better known as "Billy" Sunday, the man who recently made Philadelphia sit up and take notice, and who is now conducting a campaign at Paterson, N. J. had this to say about the Jews:
"The history of the Jews is a shining monument in the history of the world. In this race was the seat of religion for ages. It makes my blood boil to hear a man calling a Jew a 'sheeney' or a 'Christ killer.' If you are saved at all, you will be saved by the blood of a Jew. In a sense, we worship a Jew."

A Jew is as distinctively a Jew today as he was 6,000 years ago. The Jew will be as distinctively a Jew to the end of the world. The purest blood is that of the Jew, for they mix with no other race. No more notable or true or impressive were the speeches of a Patrick Henry or a Daniel Webster than of Disraeli, when he said in the House of Commons in answer to a slur at his race:
"I am a Jew, and when your Gentile ancestors were naked savages of the forests my ancestors were high priests in the temple of God."

They are a wonderful people. They are the shrewdest financiers in the world. You pay tribute to them, and I pay tribute to them in the clothes we have on. Every cabinet in Europe has a Jew in it. Not a crown or head of Europe that does not owe something to the Jews. The Jews stopped the Russo-Japanese war, because the Jewish financiers would no longer furnish the dough.

If you visit a poorhouse you will not find a Jew father or mother living out of the country. It was a Jew that organized the pure milk distribution for the poor in New York. Columbus could not have discovered America but for a Jew. For what? Isabella offered her jewels to send Columbus to discover America for there were no funds except those of a Jew named Louis Santan was willing to lend.

Three of Washington's staff were Jews and a Jew gave him \$6,000 to help fight the war of independence. And now after centuries of abuse in every country in the world, the Jews have adopted this as their own country, and ever since April, 1865, when they were given the right to make this country their home, they have lived here and prospered mightily.

They have outlived the Caesars of Rome, they have outlived the heroes of Greece, they have outlived the dynasties of France, the Egyptian Pharaohs; they have outlived all of their conquerors and tyrants. And when the boys and girls of our public schools stand up to salute the flag, 400,000 of them are the sons of Abraham.

You never see a Jew among the weary-willie, ragged, dirty, peering panhandlers mouching you for a flapjack. All hail to the Jews, I say.

REINDER MEAT MAY SOON BE A DELICACY ON AMERICAN TABLES.

[Associated Press Telegram.]
Washington, April 14.—Reindeer meat may soon make its appearance on the American table. Heretofore virtually the entire supply of reindeer meat was needed for the home consumption, but recently there has been such a surplus that government officials have decided to open up this industry for the Eskimo natives.
The meat already has appeared on the menu in dining cars of trans-continental railroads and is said to have met with instant favor.
At present there are 65 herds of reindeer in Alaska, aggregating 57,872, an increase of 22 per cent. in the last year.

Anyone Can Try Samose, the Remarkable Flesh-Forming Food.

When one of the leading druggists in Newark tells you that they have a preparation which they so thoroughly believe in that they will refund your money if it does not do all that is claimed for it, it shows that the article must have unusual merits. It is in this way that W. A. Erman & Son are selling Samose, the remarkable flesh-forming food.

Samose is in reality a concentrated food, and restores life and vitality at once to the blood. It mixes with the ordinary foods and aids digestion; it extracts from the food that you eat the flesh-forming and strength giving elements, building up the tissues and the general health.

Any one can get a 50 cent box of this remarkable flesh-forming, food knowing that their money will be refunded if it does not increase weight and restore the system to health.

COMIC OPERA FOR BENEFIT OF SOCIETY

An excellent rehearsal for "The Chimes of Normandy" was held last evening and everything is now in readiness for the big production at the Auditorium tomorrow evening.
Director E. P. Gruber announces that the opera will not be as long drawn out as it was on the evening of St. Patrick's day when it was first produced.

M. J. BACK

produced by the Mendelssohn Choral society. It is to be given for the benefit of that organization and there is every promise of the singers being greeted by a splendid audience.

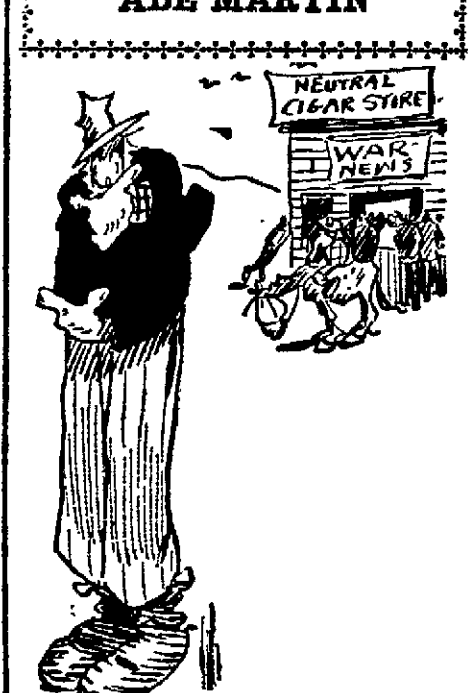

Miss Blanche Trost, who makes a charming little soubrette, is again cast for Serpolette, the good for nothing, and Miss Anna Reigser as Germaine. As on the previous occasion both of these young ladies are bound to make a hit. The entire cast of the fascinating opera is in capable hands and the thirty song numbers will be greatly enjoyed by all who attend.

It has been rumored that Mr. M. J. Back, who sings the part of Jean Grencheux, would forsake commercial pursuits for a career on the professional stage. The report is unfounded as Mr. Back expects to remain in Newark and although he has had several tempting offers he has turned them down.

Carl Myers, as Henri Marquis of Cornville, John Garrity, as Caspard the miser, Ralph "Bones" Davis, as The Balli, John Birmingham as the Registrar, Walter Rauck, the Assessor, and G. W. Rogers, the Notary, are all excellent singers and handle their parts nicely.

There are still a number of splendid seats on sale and reservation should be made at once. Get your order in at the box office now and enjoy one evening of music with the big Mendelssohn Choral society, and you will never regret it. Prices within the reach of all, 25 cents to \$1. The performance will begin promptly at 8 o'clock.

WHAT NEURASTHENIA IS

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are over-sensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea. The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills.

Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y., if you mention this paper.

PRICE BETTER AS PROFESSOR THAN A DEAN

THIS IS THE ASSERTION OF UNIVERSITY TRUSTEES ANENT REQUEST TO RESIGN

Also Deny Any Question of Politics in Action—Price Will Not Teach in O. S. U.

Columbus, April 14.—Action of the trustees of Ohio State University in relieving Homer C. Price, Licking county man, as dean of the college of agriculture, which automatically will remove him as member of the state agricultural commission, and proposing to retain him as professor of rural economics has resulted in an open breach between the dean and the trustees. Dr. Price emphatically says that he will not accept a professorship.

The trustees assert that the question of the deanship never has had, and has not now, any connection with politics. Neither present state administration nor the former one in any way affected or influenced the action of the university trustees, according to Carl E. Steeb, secretary of the board.

"Two years ago, when a change in the deanship was under consideration by the trustees," said Mr. Steeb, "the new agricultural commission was formed. The change in the deanship was postponed. Putting two and two together, it looks as if there was some connection between the action of the trustees and the proposed formation of a new commission. But there is nothing of the sort. It is merely a coincidence."

Mr. Steeb said Governor Willis knew nothing of the plan of the trustees to select a new dean. "The truth is that the trustees have at all times been independent of political influence," he declared.

President W. O. Thompson made a similar statement. He said that two years ago the trustees notified Price that his re-election as dean was not probable.

"Two years ago there was some criticism of Mr. Price as a dean, but not as professor," said Dr. Thompson. "The action of the trustees was taken merely because they deemed Mr. Price's services more valuable as professor than as dean."

STRIKING MINERS BUILDING FENCES AROUND GARDENS

Bridgeport, O., April 14.—K. C. Adams, one of the officials of the United Mine Workers, in charge of the east Ohio strike, estimated today that fully 25 miles of fence have been built by strikers in the last two weeks around the community gardens, the union is establishing to provide vegetables for the men and their families. The department of agriculture it was learned, could not supply them with free seeds and appeals were made to wholesalers in Pittsburgh, Cleveland and Chicago with the result that about 3,000 acres will be planted at once.

The Battle Front.

Petrograd, Russia, April 14, via London.—The number of head and arm wounds of the men at the front is enormous, for men in the trenches expose only their heads and arms. Many hundreds are hit in the head and death does not result from the wound. Occasionally one may see the slightly wounded walk back with heads bound up or arms in slings. Motor trucks, loaded with wounded, tear along the roads leading back from the extreme front. Perhaps forty percent of the wounded are back on the firing line after three months' care and rest in a hospital. It all depends on a man's health and blood. If the blood is pure and good, the soldier gets the first aid, proper treatment and his wounds heal by first attention.

Good blood is everything to every man. It means fresh strong nerves, good digestion, good circulation. Those who have used Dr. Pierce's Golden Medical Discovery marvel at the way it checks blood diseases. See a man today with skin all broken out; see him a few weeks later after using the "Discovery," his skin is all cleared up, eyes bright, and he is contented with himself.

The foundation of good health is good blood! Are you pale? Are you weak? Are you no longer ambitious or energetic? Have you pimples or boils? Do you suffer from headaches, low spirits? Then you are anemic—your blood is thin, lacking in healthy, strength-giving corpuscles. Then your blood is impure—and your liver is not up to its task of clearing the blood from the poisons accumulated. Dr. Pierce's Golden Medical Discovery is a temperance remedy that will restore you to rich, health-giving blood—a remedy proved by experience (in tablet or liquid form.) It is a glyceric extract of roots from our forests, known to science as those which will best give the stomach, liver and bowels needed help.—(Adv.)

BRITISH FISH IN GULF OF ALASKA; KEEPING THE LAW

(Associated Press Telegram)
Seward, Alaska, April 14.—Two British steamer trawlers, driven from the fishing banks in the North Sea by the menace of floating mines, are fishing in the Gulf of Alaska, according to officers of the United States coast guard cutter Manning, which arrived here yesterday from Sitka.

They are obeying the law and fishing well outside the three mile limit. English fishermen on the trawlers told the Manning's officers that the floating mines in the North Sea had interfered with operations in those waters to such an extent that a shortage of fish was being experienced in England.

MANY AUSTRIANS NOW FEARING A STATE OF SIEGE

(Associated Press Telegram)
Rome, April 13, via Paris, April 14.—A dispatch from Trent, telegraphed from the frontier to the Idea Nazionale, quotes an official who has just returned from Vienna as authority for the statement that a state of siege probably will be proclaimed soon in Austria because of the unrest resulting from the Russian advance across the Carpathians. Wealthy Hungarians are said to be making hasty preparations for flight.

The Idea Nazionale's correspondent says he has learned from the same source that Emperor Francis Joseph has decided to cede to Italy the so-called "Italian provinces," including Fiume, but only on condition that Italy join with Austria and Germany in prosecuting the war. This report is considered in Rome to be entirely without foundation.

"SWOBODA" NOT REAL NAME OF MAN ON TRIAL

(Associated Press Telegram)
Paris, April 14.—The real name of the man known as Raymond Swoboda, now on trial before a court martial, on charges of arson and espionage, is Raymond Ruff Schwind, it was developed at the hearing yesterday, according to the Journal. The prisoner, whose arrest resulted from the investigation into the fire aboard the steamship La Touraine, answered without hesitation questions asked in an effort to establish his identity. This was the most important point brought out during the examination.

Schwind, declared the charges against him baseless. He obtained an American passport by a subterfuge, according to the Figaro, knowing that the municipal records of San Francisco were destroyed in the fire which followed the earthquake he is said to have informed the embassy that he was born in that city.

A London business man is quoted as asserting that he recognizes in Schwind a man once employed by him as a German clerk who said he was born in Bremen and that his father was German fiscal official.

WORLD Y. M. C. A. MEETS MAY 25-29 IN CLEVELAND, O.

(Associated Press Telegram)
Cleveland, April 14.—Announcement was made here today that the triennial international convention of the Young Men's Christian Association will be held in this city, May 25-29, 1916. This will be the first time Cleveland has entertained the association of the world in 34 years. General Secretary Robert E. Lewis of the Cleveland Y. M. C. A., who is chairman of the international committee on reorganization, said today that plans were under way to make the convention differ from any other ever held. "I have plans under way to make it a deliberative body," said Mr. Lewis, "and shall this month submit to the directors of 2,508 associations an initiative proposal following the adoption of new rules making the initiative and referendum possible in our brotherhood. This initiative will divide the convention into upper and lower houses, the upper house to be made up of the convention as a whole and to sit in the forenoon of each day. The lower house will be composed of the different sections, representing city, county, railway and army and navy work respectively."

APPARATUS READY TO RAISE THE F-4

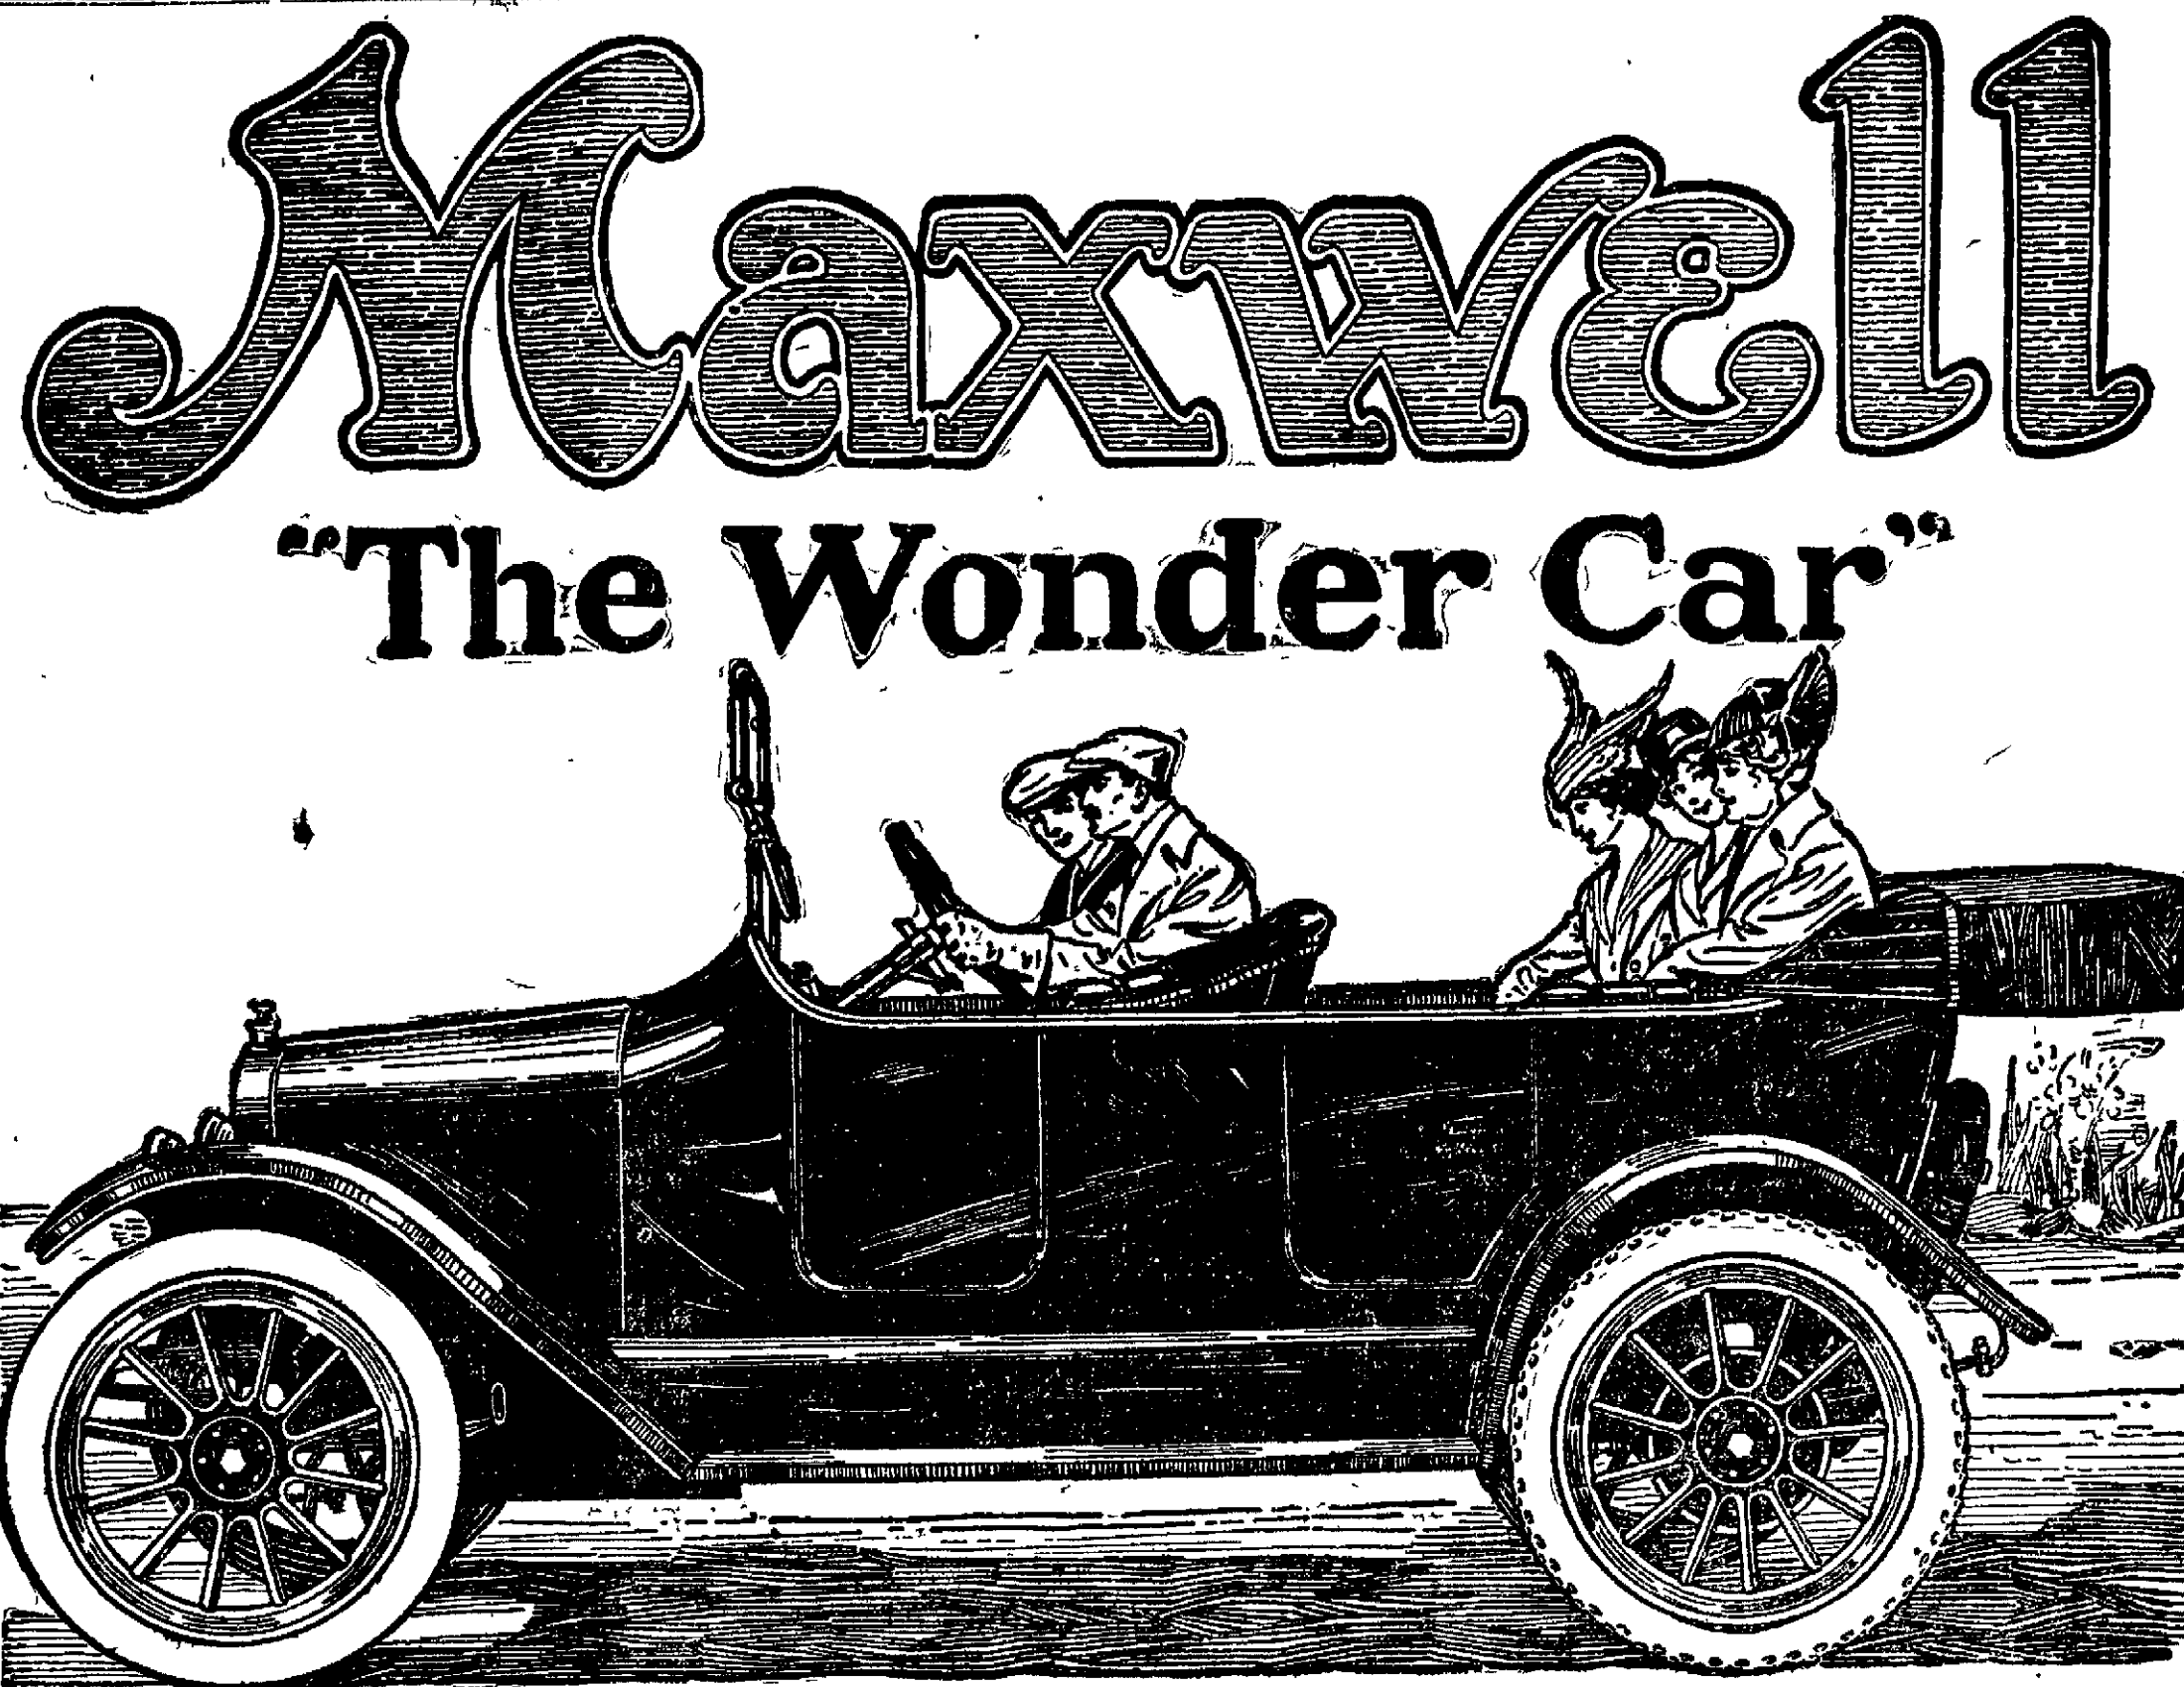

(Associated Press Telegram)
Honolulu, April 14.—The air compression tank that is to be used in the attempt to raise the submerged submarine F-4 today was tested yesterday by divers Stephen J. Drellishak and Frank Crilly.

It was announced the apparatus would be taken today to the scene of operations.

The Japanese cruiser Idzumo, on leaving Honolulu yesterday, steamed in a semi-circle about the point where the submarine is believed to lie; the crew was drawn up in salute and the warship's flag was dipped in honor of the twenty-one men who went to their death on the F-4.

Bargains in the Wants tonight.

You will have only yourself to blame if you are "talked into" buying an "unsuitable" or a "theoretical" Car.

The two commonest mistakes made in buying an automobile are—*First*, Buying a car not suited to your needs.—*Second*, Buying a car that has not passed the theory stage.

The first mistake—buying an "unsuitable" car—is perhaps made even less often than the second. But for your own sake study your needs sensibly, just as you study your household needs, and buy a car you *can* afford to enjoy—a car you will have pride in, and yet one that will not be a "ghost of reproach" to your good sense.

The second mistake—buying a "theoretical" car—is perhaps the sadder mistake of the two—because when you have made this mistake, you have on your hands some engineer's or designer's untried theory, instead of a tried, known, successful car. And you have paid a price that, put in the right car, would never have been a reproach—but would have

bought an automobile of real pride and joy.

It is because we see these two mistakes being constantly made—because we see sensible people being constantly talked into these "automobile fiascos" that we boast so much about the record of the car we sell—The Maxwell.

38,000 happy satisfied Maxwell owners are driving 38,000 handsome streamline Maxwell Cars to-day—at an up-keep cost that any man of any standing can afford, and at an original cost that is simply a practical investment.

200 Maxwell Cars Every Day

Twelve hundred a week, five thousand a month. That is the actual output of "The Wonder Car" right now and constantly increasing.

Not bare promises that cannot be kept, but actual deliveries to Maxwell Dealers.

Stop! Think a moment. There must be something back of a production so great. There must be the hearty approval and confidence of the public in the car they buy and the car must merit it all.

26 Maxwell cars every hour of the business day. Yes, that is just what the public are buying, and when you order a Maxwell, you get one the day you want it.

Back of each Maxwell stands one of the greatest and most efficient organizations in the industry, and one strong enough financially to insure you against the purchase of an "orphan car" and to give you actual deliveries of a wonderful car on the day you want it.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, give a teaspoonful of California Syrup of Figs, and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs," to evacuate the bowels no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by California Fig Syrup Company.

ABRAHAM LINCOLN'S DEATH

Fiftieth Anniversary of the Tragedy of 1865

APRIL 15, 1865.

APRIL 15, 1915

The Shooting at Ford's Theater, Death Chamber and Catafalque.

By G. LUTHER LANGDON.

(Copyright, 1915, by American Press Association.)

IT was benefit night at Ford's theater on April 14, 1865. The large audience had been led to expect that President Lincoln and General Grant would occupy the presidential box.

Civilian Washington barely knew Grant by sight, and as the Appomattox furor had not subsided the house filled early. Although the gayly decked box of the president was empty when the hour arrived, the curtain went up and the play began, its bewitching humor making people forget that the Hamlet or Hamlets of the occasion had not arrived.

About 8.30 there was an interruption to receive the president. He was accompanied by Mrs. Lincoln. Major Rathbone of the army and the daughter of Senator Ira Harris. Grant's absence from the party was not explained to the audience, and many took it for granted that he would appear later. The best of feeling prevailed before and behind the footlights, and the play, "Our American Cousin," proceeded happily well into the third act. A young actor, Harry Hawke, having the role of Asa Trenchard, was on the stage alone, holding the attention of the audience while awaiting the next "entrance."

Although absorbed in his difficult part, Hawke was probably the best witness present to note the vital scene in the tragedy which was now rudely superimposed upon the thread of a drama anything but somber or grievous. He faced the audience and was engaged in a monologue when he heard a shot behind the box which more than any other was in everybody's mind that night. Eager watchers of the entrance of that box for a glimpse of Grant had seen late in the evening a pale, thin, alert type of man, for those days, pass in the usual way behind the dress circle seats and approach the box. This was not the hero of Appomattox, so no one gave him attention better bestowed, they thought, upon the feigning personages on the boards.

Pistol and Dagger and Blood.

The stranger passed through and closed the door leading to a passage behind the president's box and was lost to all conscious sight until Hawke turned at the sound of the shot and saw a man push through the group with Lincoln, make his way, with a blood stained knife in his hand, to the balustrade, pause and exclaim dramatically, "Sic semper tyrannis!" Letting himself down to the stage by a flag trailed around the box, he fell, but soon regained his feet, took the center of the stage and, brandishing the knife, shouted, "Liberty for the south!" or "The south is avenged." Hawke said that the intruder strode straight at him, that he supposed he was a madman and meant to do him harm, that he did not know the president was the target for the mysterious shot, that it all occurred in a few seconds and he (Hawke) instantly fled to the wings.

Minor details have been added to Hawke's story—for instance, that the pistol was held over Mrs. Lincoln's shoulder, that her sharp cry followed the shot, that Major Rathbone struggled with the intruder and was cut by the dagger, and so on. But Hawke's story remains as that of the only one who could be called a look-oner from the front, and he saw and was a part of what the transfixed audience saw as the climax of that horrible night's work.

Some in the audience said to themselves, as breath and consciousness returned after the stupefying scene, "John Wilkes Booth, John Wilkes Booth!" Supper was ruled everywhere except in the box and behind the scenes. Miss Harris called out over the rail for water and stimulants, adding, "The president has been shot." The stage people were in a panic. Nobody did the right thing except Miss Harris and Major Rathbone. Rathbone rushed through a door that the assassin had barred behind him, pressed back the crowd which moved spasmodically in that direction and sent for surgeons.

Unfortunately the hotel had made a wound which baffled surgical skill.

Entering near the base of the back skull, it had been checked by the bone and lodged in the head. The wound bled profusely, and the bleeding was not helped by the president's removal in crude fashion—the arms of two men—to a house across the street from the theater. The president lapsed into insensibility when shot and so remained.

Lincoln Dead in Nine Hours.

During the small hours the bedside of the dying president was surrounded by members of the cabinet and other officials, a few close personal friends and his family. Mrs. Lincoln was overcome with emotion. Secretary Stanton hovered over the president's pillow, and the venerable Secretary Welles of the navy and Senator Sumner of Massachusetts stood on opposite sides of the couch, with an army group, including the son, Captain Robert Lincoln, disposed about the room.

No hope was held out by the surgeons, and their reports throughout the night led the public to believe that death must ensue. Other alarms distracted attention—the secretary of state had been attacked in his bed, and it was rumored that Grant had been killed. All in all the Washington dispatches that appeared in the morning papers of the country on the 15th indicated a conspiracy of which the president was the chief victim. That the evil would stop there few could believe.

Toward midday the people of cities with telegraph connections knew that Lincoln had expired about 7.20 in the morning. Having alternated for hours between the baseless hope that the president would live and the natural fear that the assassination was part of a conspiracy to undo the work of the war, the public mind, to a large degree, bordered on hysteria.

Just as the more susceptible of the excited ones at Ford's theater when they realized the foulness of the deed before them had rushed toward the stage where the assassin was last seen, crying, "Kill him!" "Hang him!" so thousands throughout the land clinched their hands and grated their teeth in uncontrollable rage when the worst was known. But for these thousands there were tens and hundreds of thousands who accepted the calamity as one more sacrifice on the altar of the nation's good, one to be felt deeply and borne heroically.

Extended Funeral Obsequies.

These last were they who for three weeks with somber bearing awaited along the route chosen for the memorial journey the hour when all that remained of the mortal Lincoln—the martyred Lincoln—would pass and be gone forever. The funeral was held in Washington on Wednesday, the 19th, and that day throughout the whole land, in camp and metropolis, in city and town and village, millions and millions participated in solemn rites.

Then followed the great processions in Baltimore, Philadelphia, New York, Albany, Buffalo, Cleveland and all along the route to Springfield, where the burial took place on May 4. On the train the coffin was borne in a magnificent funeral car and in the cities moved in the processions on a stately catafalque. In every city the remains lay in state a few hours, and night and day the people gathered to pay one more tribute to the dead, often facing pouring rain in the street to view the catafalque, or while waiting for access to the crowded hall where the coffin lay. And the stations and bridges and buildings, public and private, made one continuous pall. Archways were erected and wreathed in crape and evergreens and flags. Meanwhile the wretched assassin, John Wilkes Booth, a crippled fugitive, was hunted down and shot to death in a wretched Virginia stable.

Lincoln in History.

The burial was at Oak Ridge cemetery, Springfield. There the remains rested without a suitable memorial until the monument designed by Larkin C. Mead was dedicated in 1874. It may be said truly that during the years between 1865 and 1874 Lincoln was lost to the public mind. Millions revered his memory, his portrait adorned the walls of a nation and cabins, his stories written by personal friends, partners and poets. Colleagues were well remembered, the masses didn't for-

get him, but his public work was past history, or so it then seemed.

Even before Lincoln was laid in his tomb the nation was plunged afresh into the turmoil of war and war alarms. General Sherman was virtually accused of treason in the matter of making terms with the Confederates for the surrender of Johnston's large army. Grant was sent to the front to relieve Sherman. The fleeing Confederate government was being pursued for fear a new stand would be made in the mountains or beyond the Mississippi. Andrew Johnson stepped into Lincoln's shoes and was instantly at odds with his cabinet and colleagues. Grant was "the man of the hour," upon whom the public relied to restore order, but even Grant was checked by red tape and a veiled jealousy and hostility which often tied his hands.

The ink was barely dry upon Lee's treaty of surrender when Sheridan was ordered to gather his forces and proceed to the Mexican border and prepare for a new war with the forces of Maximilian. For three years following the end of the Confederacy and the death of Lincoln anxiety and misgivings ruled the nation, not to be dissipated until the election of Grant, "the man on horseback," to the White House in 1868. Grant's sword took the place of Lincoln's wisdom and honesty as the guarantee of national life and safety. Never was the saying "The king is dead; long live the king," more applicable than in the United States in 1865. Grant was the new king, though unconsacrated and unenthroned. The verdict upon Lincoln was that he had wrought honestly and nobly, but time alone could determine the enduring value of his rule. Not until the twenty-fifth anniversary of his death was there a national movement to commemorate his life-work by celebrating his birthday.

Lincoln's Closing Days.

The last six months of Lincoln's career in the executive chair were notably eventful. In November, 1864, he was re-elected upon his record as war president of three and a half years. His re-election had not been a foregone conclusion. Such was the demand for a military man that General Grant had been impelled to declare that he would not be a candidate. General McClellan ran on an anti-war platform, and, although his electoral vote was light, he drew a surprising popular vote.

That the people of the north were tired of the war was evident in spite of Lincoln's triumph at the polls on a ringing war platform. In order to prove his desire for peace he yielded to the pressure of the hour and met Vice President Stephens of the Confederate states at Fortress Monroe, in February, 1865, to arrange the preliminaries of negotiations. His firm avowal that the basis of such negotiations must be the submission of the south ended the conference, and from that time on the problem of conquering peace and restoring the relations of the sections absorbed his heart and mind. His thought, his hope, his conviction were epitomized in that marvelous inaugural address of March 4, when he surpassed not only himself, but all the classics of American political eloquence. One specimen suffices to stamp its tone and power:

"With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in, to bind up the nation's wounds, to care for him who has borne the battle and for his widow and his orphan—to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

While in it and after the fall Mr. Lincoln said that he believed that the conquered people would be "let up easy." This was in accordance with views expressed to Grant after he had met Confederate peace commissioners. Grant states in his memoirs that at that time Mr. Lincoln said that if the southerners would agree to perpetual union and the abolition of slavery he would be willing to hand them a blank sheet of paper with his signature attached and let them state the terms they desired. These views, known to the general public in the field, influenced those in their negotiations for the surrender of the Confederate armies.

Beer, Which is Now Allowed in the Army Canteens Will Not be Abolished.

(ASSOCIATED PRESS TELEGRAM)
London, April 14.—Parliament re-assembled today with a fair attendance. The first hour was devoted principally to questions concerning the war.

Lewis Harcourt, secretary of state for the colonies, promised that the Dominions would be consulted fully in regard to the terms of peace.

Harold J. Tennant, parliamentary under-secretary of war made the announcement that there had been 1546 promotions to commissions from the ranks since the beginning of the war. He also gave what was regarded as a possible clue to the intentions of the government concerning the drink question. He said that beer was the only intoxicant now permitted in the canteens and that it was not the intention of the authorities to prohibit its sale.

Mayor Roberts Must Serve Six Years

Mayor Donn M. Roberts of Terre Haute was sentenced in the Federal Court to serve six years in Leavenworth prison. To this was added a fine of \$2,000. Roberts was the chief defendant in the Terre Haute election corruption conspiracy trial conducted by the government. Eleven other officials were also sentenced.

When Judge Anderson asked, before pronouncing sentences, whether any of the convicted men or confessed defendants had anything to say, Mayor Roberts did not move, but two of the convicted men, George Ehrenhardt and Lester Hull, attempted to shield Roberts by declaring that while innocent of the crime charged, they had not been instructed along any lines prior to the election. The government had charged that Roberts held a "school for election inspectors."

W. & L. E. WILL BE AGAIN OFFERED AT COURT SALE

(ASSOCIATED PRESS TELEGRAM)
Cleveland, Ohio, April 14.—The Wheeling & Lake Erie railroad now in the hands of a receiver, will again be offered for sale by the United States district court here at 10 a. m. Friday at the road's depot here. Report has been current that eastern men would bid on the property but officials of the road said today they knew of no prospective buyers. The upset price is fixed at \$18,500,000, but the purchaser would be required to assume additional obligations which would make the property cost about \$20,000,000. It would require about \$1,000,000 more to place the road in first class condition, according to railroad men. The road is 463 miles long and taps a rich coal field in southern Ohio and West Virginia. The last attempt at a sale there were no bidders.

BURGLARS GET CLOTHING AND STEAL HORSE

Burglars who forced an entrance to the general store of the Pataskala Merchandise company some time Tuesday night stole a quantity of shirts, shoes and clothing, entered the Courrier & Webb hardware store, stealing a small quantity of merchandise, and then stole a horse and buggy, making their getaway. The horse was found later on the outskirts of Columbus. Newark police officials were notified of the theft and asked to keep a sharp lookout for the burglars.

At the Pataskala Merchandise company's store, the front door was forced open with a "jimmy." The burglars worked without interruption and gathered a large quantity of clothing and other merchandise. An inspection of the stock this morning indicated that the burglars got away with nearly \$50 worth of goods.

At the Courrier & Webb store, the haul was not so large, the value being estimated at \$25 this afternoon.

The horse and buggy, which is believed to have been stolen by the same men, was the property of Harry Lee and the general alarm which was sent out early today, resulted in the horse and vehicle being recovered on the outskirts of Columbus.

Working on the theory that the thieves went to Columbus, the police in that city rounded up several suspects but thus far none of the merchandise has been recovered.

CO. COMMISSIONERS FURNISH MAN AND WIFE A TRIP HOME

William Hill, who has been employed at several garages in this city, applied to the county commissioners today for transportation for himself and wife to Pittsburg. Hill stated that just as soon as he arrived at Pittsburg he would secure employment and return the money to the officials. He had an order for assistance which had been given him by the township trustee. He is paralyzed in one arm but is able to operate an auto. He claims that he lost all his money, \$18, out of one of his pockets last Saturday evening while walking through the Arcade. The commissioners gave Hill an order for the tickets and he left the office with profuse thanks and a promise to refund.

SECRET MISSION OF GROUP OF MEXICANS IN NEW YORK CITY.

(ASSOCIATED PRESS TELEGRAM)
New York, April 14.—Sent here by General Carranza, on a "confidential mission," a group of Mexicans headed by Colonel Alferdo Brecada, Carranza's private secretary, was in New York today. Colonel Brecada said that the presence of the mission here, while General Huerta was in New York, was merely a coincidence.

NEW MARKET TO BE COMPLETED BY SEPTEMBER 1

Bids will be opened by the Peoples Market Company next Tuesday for the construction of the new market building on the old canal site between Second and Third streets. Eight contractors have already indicated that they would submit bids. A requirement from bidders is a guarantee that the work on the market house itself must be completed and the house ready for occupancy by September 1. The building will cost from \$20,000 to \$25,000.

The new market will have three times the floor space of the present quarters and will provide accommodations for 120 stalls. Rest rooms, offices, directors' quarters and other convenient accommodations are provided for in the plans.

The floors will be of steel reinforced concrete and the building itself will be of brick, the product of the Vogelmeier Brothers of this city being specified in the advertisement for bids. The building is to be one and two stories high with flats on the second floor at both the Second and Third street entrances.

Plans for the building were drawn by W. B. Patton. All the stock in the company has been sold and there is every indication that the new building will be a credit to the city.

Eight contractors have already indicated that they would submit bids. A requirement from bidders is a guarantee that the work on the market house itself must be completed and the house ready for occupancy by September 1. The building will cost from \$20,000 to \$25,000.

The new market will have three times the floor space of the present quarters and will provide accommodations for 120 stalls. Rest rooms, offices, directors' quarters and other convenient accommodations are provided for in the plans.

The floors will be of steel reinforced concrete and the building itself will be of brick, the product of the Vogelmeier Brothers of this city being specified in the advertisement for bids. The building is to be one and two stories high with flats on the second floor at both the Second and Third street entrances.

Plans for the building were drawn by W. B. Patton. All the stock in the company has been sold and there is every indication that the new building will be a credit to the city.

APPOINTIVE

(Continued from Page 1.)
The appellate jurisdiction it had before the judicial reform amendment went into effect two years ago. Mr. Chittenden is acquainted with having drawn the proposal for submission of an amendment to the people next fall, increasing the highest tribunal's authority. The committee took no action.
